Technical Data

Drive with ease, explore with confidence

Every journey holds the potential for new beginnings – be it a valuable experience, a happy coincidence, or a cherished memory. With the versatile Škoda Karoq, you can embark on these journeys in utmost comfort. Boasting unmistakable SUV styling, the Karoq combines practicality with head-turning aesthetics. Its compact dimensions are accentuated by a distinctive front grille and protective elements all around. LED lighting and striking alloy wheels further enhance its impressive exterior.

Step inside to experience classic Škoda attributes such as generous space, comprehensive connectivity features, and reassuring assistance systems. For those seeking adventurous detours, the Karoq offers an optional 4×4 drive, ensuring you're ready for any path you choose to explore.

Top full LED tail lights

The tail lights, supplied in two versions, have also been innovated both in terms of shape and technology. Fitted with animated turn indicators, they significantly improve the visibility of your car for other drivers. In addition (depending on surrounding light intensity), when you lock and unlock your car, the welcome effect activates the animation feature.

Full LED Matrix headlights

The newly shaped Karoq headlights are available in two types in terms of functionality. Equipped with LED lights, both types offer high performance and high energy efficiency. The top-end option comes with full LED Matrix headlights, giving the driver maximum light power without dazzling other road users.

Comfort is your co-driver

Indulge yourself even when driving. Modern technologies, remarkable roominess, and a host of practical details will turn your everyday journey into a luxury trip.

KESSY

You will quickly get used to the convenience of KESSY (the Keyless Entry, Start and exit SYstem), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

Welcome logo

The LEDs on the front doors' underside, projecting the Škoda inscription, illuminate the entry area.

Spend hours in one place

Inside the car, spaciousness meets sophisticated style and modern technology. The interior boasts upholstery and décor options and an array of practical equipment to increase your comfort and safety.

10" Virtual Cockpit

The optional Virtual Cockpit displays onboard computer specifications in combination with other information, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the steering wheel.

8" Digital display

The new Karoq features a digital display with clearly readable graphics, which takes all the information you need and puts it where you need it most – in your field of vision.

Foldable rear seats

Need more space? Just fold the rear seats and increase the cargo capacity to a generous 1,630 litres. Now you can transport even the largest items – or a lot of smaller ones..

Pack more, stress less

The Karoq boasts a generously spacious boot, starting with a base volume of 521 litres when using the standard seating configuration. Fold down the rear seats, and you'll unlock an impressive 1630 litres of cargo space, ready to accommodate all your adventures.

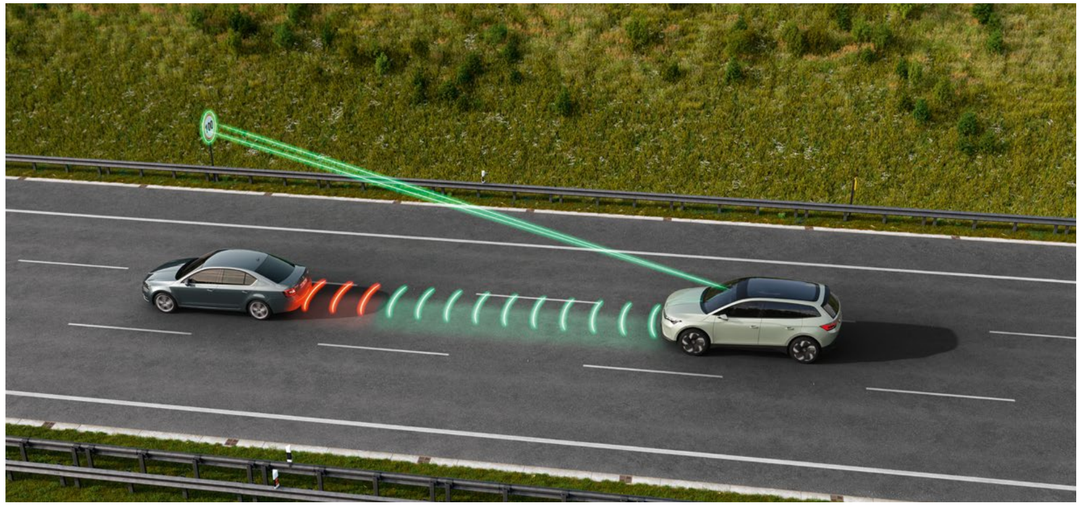

Net programme

The practical nets reliably prevent your things from moving around. Plus, you can clearly see where you have put everything.

Travel Assist

The Travel Assist system combines the functions of several assistants and ensures that you feel safe and comfortable, no matter where you drive. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel.

Traffic Jam Assist / Follow Drive

This function is designed to facilitate driving in traffic jams. By controlling the engine, brakes, and steering, it makes the vehicle pull away, brake, and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h). If lanes are not detected at speeds of up to 30 km/h, or only one lane (line) is detected at speeds of up to 60 km/h, the Follow Drive system follows the trajectory of the vehicle in front of you until lane markings are available again.

Predictive Adaptive Cruise Control

Using a radar device, camera equipped with traffic sign recognition, GPS technology, and detailed information from the road map, PACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO_2 emissions.

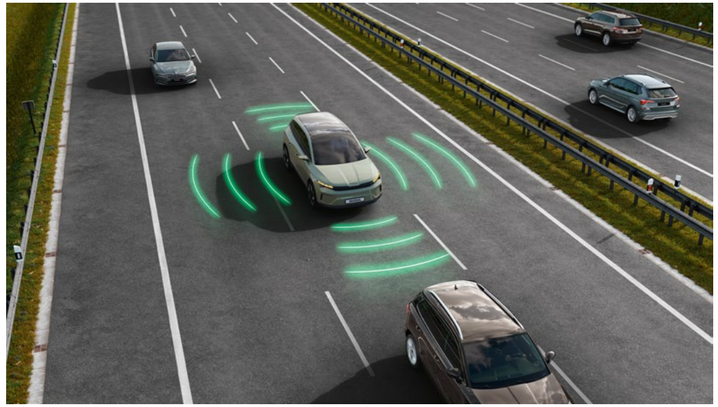

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

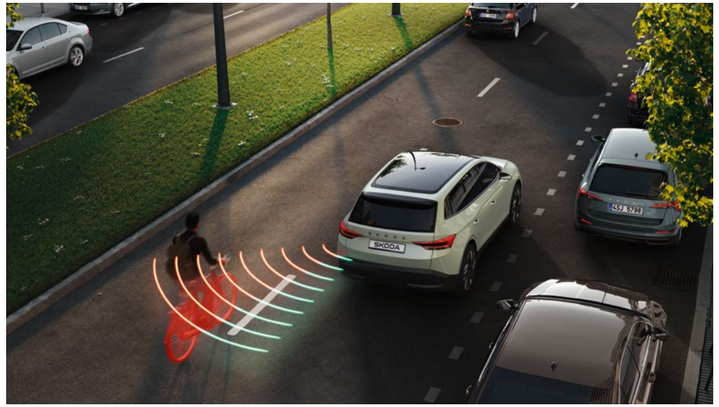

Emergency Assist

Emergency Assist reduces the risk of an incident in the event of the driver's sudden health collapse, for example, by safely stopping the car and turning on the warning lights.

Side Assist / Rear Traffic Alert

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver. Using the Side Assist sensors in the rear bumper, Rear Traffic Alert (not shown) helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Loft interior

Unique Chrome pad
Anodized Cross décor
Fabric upholstery

Selection

The standard equipment of the Selection version includes 8" Škoda Infotainment, 8" Digital Display, leather multifunction steering wheel, Climatronic, Bluetooth, LED headlights and LED rear lights with dynamic turn indicators, rear sensors, KESSY GO and more.

Loft

The Loft interior exudes a stylish, contemporary look with its combination of Unique Chrome pad with black fabric seat upholstery and Anodized Cross décor.

Lodge interior

Piano Black pad
Linear Dynamic décor
Fabric upholstery

Selection

Lodge

With combination of black pad and black fabric upholstery, highlighted by contrasting linear Dynamic décor, the Lodge interior offers a feeling of discreet elegance.

Lounge interior

Piano Black pad
Linear Dynamic décor
Suedia/leather/leatherette upholstery

Selection

Lounge

The main attraction of the Lounge interior are the seats, upholstered in a combination of black Suedia and black leather/leatherette. The Piano Black dash pad and linear Dynamic décor underscore the feeling of refined quality.

Suite Mocca interior

Piano Black pad
Nisha fabric décor
Fabric/Suedia/leatherette upholstery

Selection

Suite Mocca

The Suite Mocca interior exudes a luxurious feeling. The seats are upholstered in a combination of Mocca and black fabrics, while the overall style is underscored by the Nisha fabric décor on the doors.

Suite Black interior

Piano Black pad
Linear Dynamic décor
Leather/leatherette upholstery

Selection

Suite Black

The sumptuous style of the Suite Black interior builds on the combination of fine leather/leatherete upholstery, contrasted with Piano Black dash pad and linear Dynamic décor.

Sportline

For the sport called life

They say there is no rest for the restless. But the new Škoda Karoq Sportline is certainly a comfortable way to unleash your active ambitions.

And with the optional 2.0 TSI/140 kW 4×4 engine, driving to your favourite outdoor activity will be as exhilarating as the sport itself.

Style and functionality

The bumpers in the Sportline design are accompanied by black exterior elements, such as front grille frame, external side-view mirror caps, window frames, and roof railings. The dynamic appearance of the car is further enhanced by the extended roof spoiler, inscriptions in black on the 5th door (such as Škoda, the model name, or 4×4), black rear diffuser, and 18" black or 19" anthracite (shown) alloy wheels. In addition, the full LED Matrix headlights come as standard.

Sportline interior

Piano Black pad
Carbon décor
Fabric upholstery with ThermoFlux function

Sportline

The standard equipment of the Karoq Sportline includes external side-view mirror caps in black and door handles in body colour, spoiler in body colour (rear cover), full LED Matrix headlights with All Weather Lights function, full LED tail lights with dynamic turn indicators and welcome effect, multifunctional camera, 3-spoke multifunctional sports steering wheel in perforated leather, silver stitching (front armrest), LED ambient lighting, pedal covers in alloy look, door sill strips, plus more.

Sportline

The sporty feel of the Sportline interior is centered around the black fabric seats with quilted upholstery in the middle, and underscored with the Carbon décor on the door and Piano Black dash pad. The black headliner completes the dynamic look.

Accessories

Genuine Aceessories. Just the way you like.

Your personality shines through in the details, and your Škoda Karoq should reflect that. Customise your Karoq with Škoda Genuine Accessories to create a unique driving experience, wherever you go.

Stand out by adding chrome footboards or a stylish set of wheels, whether you're on the road or off it. For a sophisticated interior, opt for stainless steel pedals, door sill strips, or premium foot mats. Whether in rain or snow, all-weather mats will help keep your car clean.

Enhance your convenience with smart accessories like holders for bags, clothes, and multimedia devices. Keep refreshments handy with thermo-electric boxes or even a coffee maker. If you need more space, there are various options for transporting luggage and equipment, such as roof racks, boxes, or bike racks for the towbar.

Safety is paramount, especially for your little passengers. Choose from a comprehensive range of child seats and transport solutions for your dogs.

Make your Karoq perfect for any journey!

Towbar rack

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment version of the car.
( ) Applies to the version with automatic transmission.

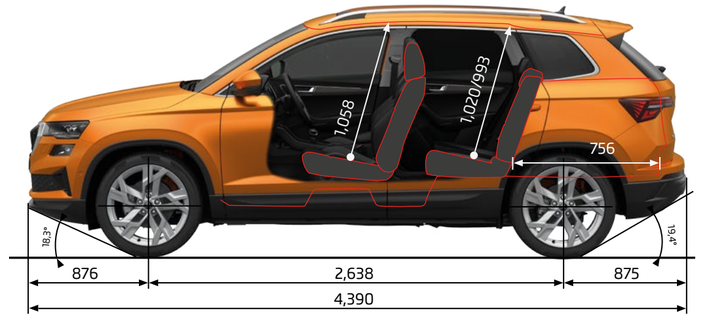

* The luggage compartment volume decreases by 95 liters with the spare wheel.

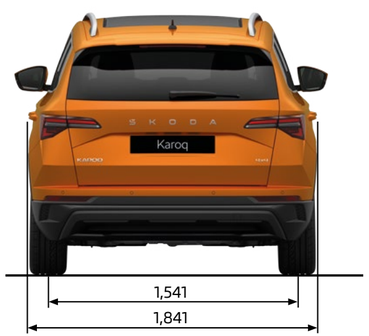

** Available exclusively for Sportline cars.

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO_x). The volume of the AdBlue® tank is 12 l and consumption depends on the driving style.

Technical specifications for Sportline cars (except 2.0 TSI/140 kW engine) may differ.
For more information, contact your Škoda partner.

For Sportline cars, some specifications shown in the technical drawings may differ.
Specifications may also differ depending on the engine and wheel drive.
