Technical Data

To lead is to explore

Embark on your journey with confidence and curiosity. With the perfect companion, you'll have the freedom to discover new horizons, enhance your lifestyle, and create a nurturing environment for your family. The Škoda Superb is that ideal partner.

The new Superb offers even more spaciousness for passengers and their belongings. Experience a smarter way to control your drive, blending digital innovation with tactile feedback. Revel in next-level comfort with features such as Ergo seats, paired with enhanced practicality. This is a new vision of what your driving experience can be.

The upgraded engine range now includes a plug-in hybrid with a remarkable range exceeding 100 km, making your travels more efficient. Combined with the new dual-valve DCC adaptive suspension, you'll uncover a whole new dimension of driving dynamics and comfort.

The new Škoda Superb. Explore the extra-ordinary.

Smooth and sharp at the same time

Smooth lines born from crystalline structures. A sleek shape built around practicality. The new Superb is large enough for many personalities. A safe space for whoever you might want to be.

Practical elegance

From the unmistakable, imposing front fascia with bold, wide grille and sharp-edged Crystallinium headlights, the smooth lines of the bodywork flow towards the spacious rear. Under the elegant, aerodynamic shape that cuts through air even easier than before, the new Superb once again offers exceptional space and practicality. Thanks to the longer and higher body, all passengers have even more headroom. The stylish rear hides the largest luggage space in the class. Overall, the Superb once again proves that attractive looks, effective aerodynamics, and great practicality can go hand in hand.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. The LED Matrix beam headlights provide great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially towards in the direction you are turning.

Virtual Pedal with Easy Close

Opening and closing the boot is effortless, even when your hands are full. Simply make one forward kicking motion under the bumper to open the boot and kick again to close it. The boot waits for you to step away, giving you ample time to load or unload your luggage. This feature is available with KESSY and the power-operated boot.

Walk-away KESSY

Never worry about forgetting to lock your car again. The new walk-away function of the Keyless Entry Start and Exit System not only allows you to lock and unlock your car by touching the front door handles, but it also automatically locks the doors when you walk away with the key.

A space to lead

Experience a digital world that feels delightfully tactile. The new Superb harmoniously blends tradition with a forward-thinking vision. It seamlessly guides you into the digital age while preserving intuitive, tactile controls. Its innovative materials are both visually appealing and pleasing to the touch. With the new column-mounted shifter and elegant Smart Dials, you'll find abundant space for ingenious ideas and convenient storage. Ambient lighting infuses the interior with a distinctive ambiance, accentuated by an array of smart, thoughtful details.

Head-Up Display and Virtual Cockpit

All the key information right in front of you. The standard 10" Virtual Cockpit offers driving data in an easy-to-comprehend, customisable view. In addition, the Head-Up Display can be selected as an optional extra, showing the most crucial information and navigation guidance right on the windscreen.

Seamless connectivity and control

See what you need, when you need it. With the Head-Up Display, 10" Virtual Cockpit, and 13" Škoda Infotainment system, the new Superb ensures you stay informed, prioritizing information by importance.

Infotainment screen

The world at your fingertips. With a 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience. Smoother, faster operation thanks to the new generation of MIB system.

Display Cleaner

Keep your screens clean and gleaming. Effortlessly remove smudges and fingerprints from the infotainment display or any other glossy surface. The display cleaner is conveniently stored in the center console, ensuring it's always within easy reach whenever you need it.

Take the online world with you

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. Škoda Connect is your gateway to a world of unlimited communication options.

Always connected

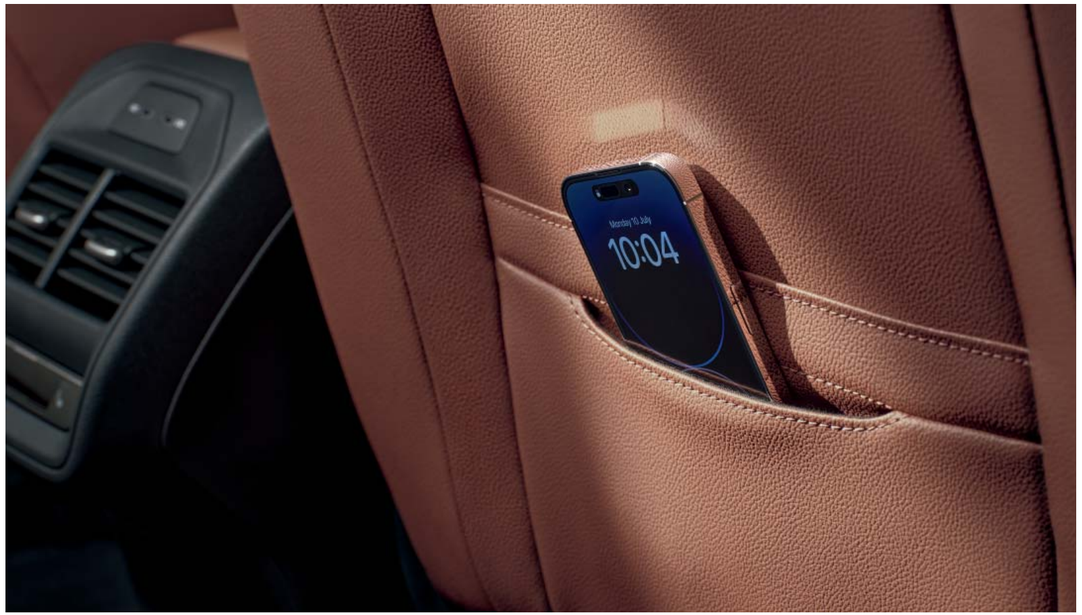

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

MyŠkoda

Enjoy full control of your car from your phone. With MyŠkoda application, you can lock and unlock your car, see where it is parked, check driving data or fuel range or watch video tutorials. You can even pay for your fuel or parking!

Details matter

Moving ahead is easier with a bit of assistance. Someone to handle the details. The new Škoda Superb anticipates every need. Ingenious storage solutions, smart work-friendly features, and delightful surprises to keep your family entertained.

Armrest with tablet holder

Your in-car entertainment or work station while your car is stationary. Enjoy a film or watch a presentation on the tablet, and place your drinks safely in the cup holders.

Double pocket

Keep your things organised with the double pockets on the rear sides of the front seats. The larger one is perfect for a notebook or laptop computer, while the smaller one nicely fits a smartphone.

Effortless organization

Not only spacious, but smart. With 645 liters in the limo version and 690 liters in the combi, there's room for everything. But it's more than just space; it's about giving everything its own place. Hooks, nets, cargo elements, double floor, and other practical features keep your life on the road organized.

Movable multifunctional storage

The practical net under the roller cover is perfect for storing items such as life jackets, handbags, or other light items. It is perfect for things that you want easily on hand and away from heavier items in the boot.

Electric roller cover

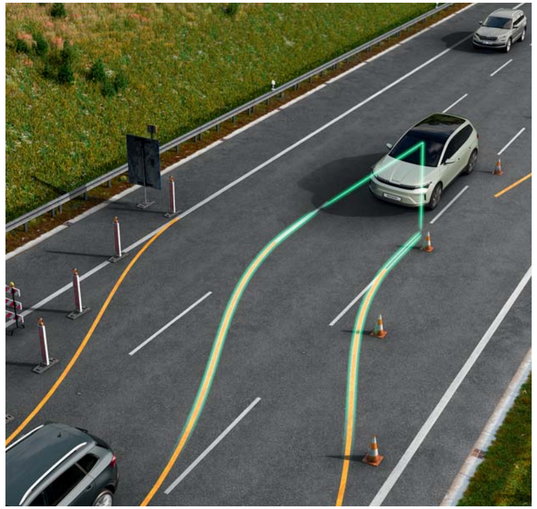

The roller cover off the boot automatically retracts when the tailgate is opened and extends again when it is closed. It can be unlocked for manual operation, for example when carrying large items.

Predictive Adaptive Cruise Control

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO_2 emissions.

Safer. Easier. Smarter.

Your co-pilot is now even better. The improved Travel Assist 3.0 is now able to follow the vehicle in front and offers improved lane guidance and lane changing. In case of emergency, the car is able to stop safely at the side of the road. Using online data allows for more precise reactions around traffic islands, railway crossings and speed bumps, as well as improved traffic sign recognition, including temporary signage. Also new is the ability to detect traffic lights and all the sensors have also been improved and updated.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks

Turn Assist

Automatically activated when the vehicle is turning, this system uses front sensors monitoring the area in front of the vehicle. This allows it to prevent collisions with the oncoming traffic that could've been overlooked by the driver.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Trained Parking

A highly advanced parking assistant is used to automatically complete a parking manoeuvre in a familiar environment, e.g., at home. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to the garage or a parking space. After that, as soon as the car recognises the scanned route, it will ask you (via the infotainment) whether it should take control. Following your approval, the vehicle will park itself. You simply monitor it from the driver's seat.

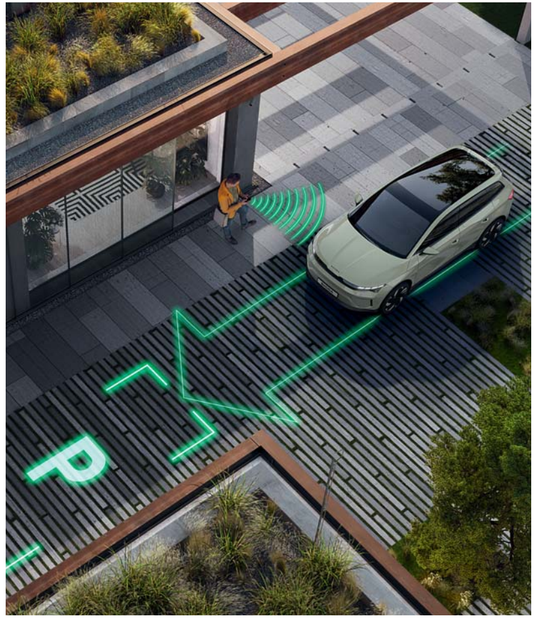

Parking smarter is parking safer

Could parking be any easier than fully automatic? The new Superb is able to find you a space and park in it, without you even being in the car. It can also be taught to park in a spot of your choosing.

Intelligent Park Assist

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Superb will autonomously drive itself into the parking space – either between the parked cars or just between the lines – without the driver having to touch the wheel or pedals.

Remote Parking

Let your car park itself, while you watch from the outside. Remote Parking Assist enables you to use the Intelligent Park Assist to park your car, or move it in or out of a parking space. For safety, you need to watch and control the car by keeping your finger on the button in the app.

Selection

Suite Black

Black leather and leatherette upholstery, together with black leatherette dashboard pad and Melange grey décor with Unique Dark Chrome, create a unique and stunning look. Fully electric Ergo seats with heating, cooling and massage functions provide maximum comfort anywhere you go.

Sportline

Athletic elegance

Even when you're not putting your foot down, you can still turn heads with your sporty style. The Superb Sportline enhances the model's tasteful elegance with a healthy dose of athleticism, featuring distinctive wheels, exclusive badging, and sleek glossy black trim.

Style and functionality

A dynamic personality deserves a car with flair to match. The Superb Sportline commands attention with its sleek glossy black trim and mirrors, sporty front and rear bumpers, and a distinctive set of wheels. The LED Matrix headlights, featuring Crystallinium elements, appear more striking against the dark backdrop. To top it off, the lowered suspension enhances the driving experience with a sportier feel.

For a rally-inspired commute

Experience a spacious and comfortable cockpit with a dynamic twist. The electrically-operated sports seats allow you to effortlessly find your ideal driving position. The sports steering wheel with perforated leather upholstery falls nicely in your hands, making cornering a breeze. Set the mood with some fast-paced music on the Canton Sound System, switch the ambient lightning to a vibrant red, and select Sport Driving Mode using the central Smart Dial. Now you're ready for an exhilarating commute!

Laurin & Klement

A crystal-clear path to luxury

Whatever your destination in life may be, driving the Superb Laurin & Klement means that you have already arrived. Its quiet elegance and long list of luxury features will please even the most discerning drivers and passengers.

Style and functionality

As is usual for Škoda models bearing our founders' names the Superb Laurin & Klement is here to make your day feel special; to make you feel special. It starts on the outside, with Unique Dark Chrome exterior trim package, unique multi-spoke 18" alloy wheels and the unmistakable look of LED Matrix headlights with coloured Crystallinium elements. Once you open the door, the Boarding Spot lights will allow you to see where you step – and provide you with more style. Whether on the move or just parked, the Superb L&K makes the world know that you have arrived.

When only the best is enough

Inside the spacious cabin is where you will enjoy the Superb Laurin & Klement at its best. Just find the perfect position for the electrically-operated Ergo seats and save this to the memory, or enjoy the comforts of the heating, ventilation, and massage functions. Be immersed in the rich sound of the Canton Sound System, which stands out even more thanks to the Acoustic Package. Change the ambient lighting to suit your mood and select the right Driving Mode (including the 2-valve DCC suspension) for your driving style. Enjoy the stylish colours and materials, including the optionally available black headliner. The Superb L&K is the perfect choice whether you're rushing to a meeting or enjoying a quiet Sunday drive.

Accessories

Enhance your Superb with Genuine Accessories

Just like well-tailored clothing, your Superb should reflect your personality and meet your needs. Your car must adapt to a wide range of situations and environments. Mud, snow, or rain? With Škoda Genuine Accessories, you're prepared for any weather.

Choose alloy wheels that not only improve the design but also enhance the handling of your car. Add stylish elements like mirror caps or door sills. Elevate the interior with premium foot mats or protect it with all-weather mats.

Simplify your life with various holders, hooks, charging cables, and smart features such as door-mounted bins and entertainment packages to keep rear passengers entertained on the road.

We also prioritise your safety along with that of your passengers and pets. Our comprehensive range includes child seats and seat belts for dogs.

Wherever you go and whatever you do, perfect your Superb experience.

Trailer load with brakes – 12% (max. kg)	1,600	1,800	2,000	2,200	2,200	1,800

Further specifications

Body		Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Type	5-seater, 5-door, 2-compartment	Rear brakes	Disc brakes
Turning circle diameter (m)	11.8	Clearance (mm) – according to engine version	139
Chassis		Luggage storage space – without spare tyre	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser	With rear seat backrests – upright/down (max. l)	690/1,920
Rear axle	Multi-element axle, with longitudinal and transverse links, with torsion stabiliser	Tank capacity (l)	66

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment version of the car.
( ) Applies to the version with automatic transmission.

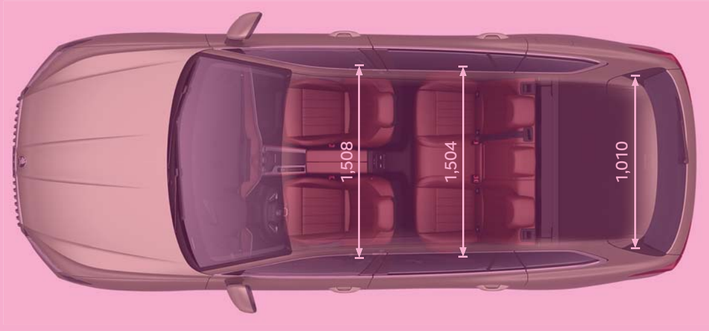

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NOx). The volume of the AdBlue® tank is 16 l and consumption depends on the driving style.

For Laurin & Klement and Sportline cars, some specifications may differ. Specifications may also differ depending on the engine and chassis configuration. For more information, contact your Škoda partner.

NOT FINAL

Disclaimer

The specified values refer to the achievable charging power of a new vehicle. This may decrease with the aging of the battery. The aging of the battery depends on a number of factors, including the load, charge cycles, and the charging management used.
