

SKODA

# Cycling Collection

2023-2024

# Dear cycling friends,

We proudly introduce our latest Škoda Cycling Collection for years 2023–2024. The collection comprises seven models, ranging from Road bike, Mountain bikes, Kids bike to E-Bikes. The new eCross model expand the range of Škoda E-Bikes and make the ride even easier.

Pay attention to the chapter Cycling Accessories with gear for cycling. We also offer a lot of accessories and tools to make your ride even easier and more safety.

Bicycles inherently belong to the Škoda brand. Whether by referring to the historical origins of the brand or by sponsoring major cycling races such as the Tour de France and La Vuelta.

We believe that riding Škoda bikes will be a pleasure for you.

Enjoy your ride!

## Does it matter which bike frame size I choose?

Indeed, it does. A correctly fitting bike will help you to go further for longer. Choosing the right sized bike depends on the type of the bike, your height, the inside leg measurement and your riding style. But it is not complicated as it sounds.

## How to choose correct size of the bicycle

The most important criterion that determines the size of the bike you need is your height. If you find that you're between sizes or you're unsure of which of two frame sizes would suit you best then other factors that can be considered is your reach.

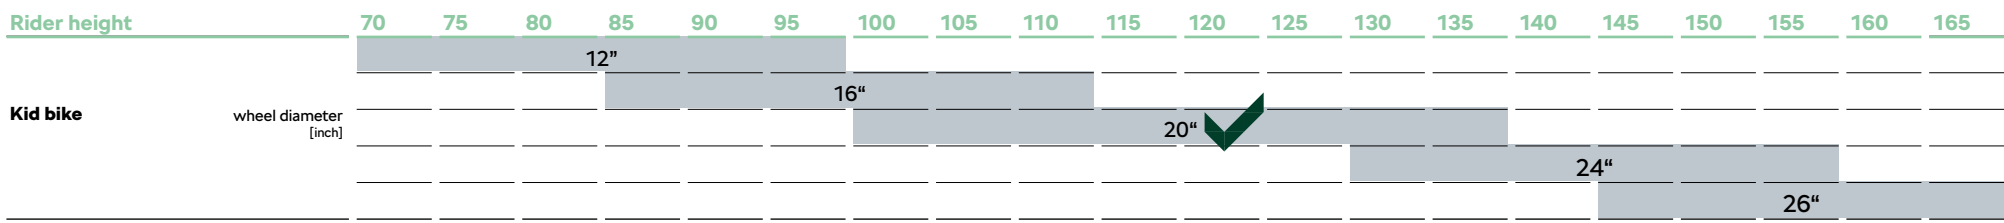

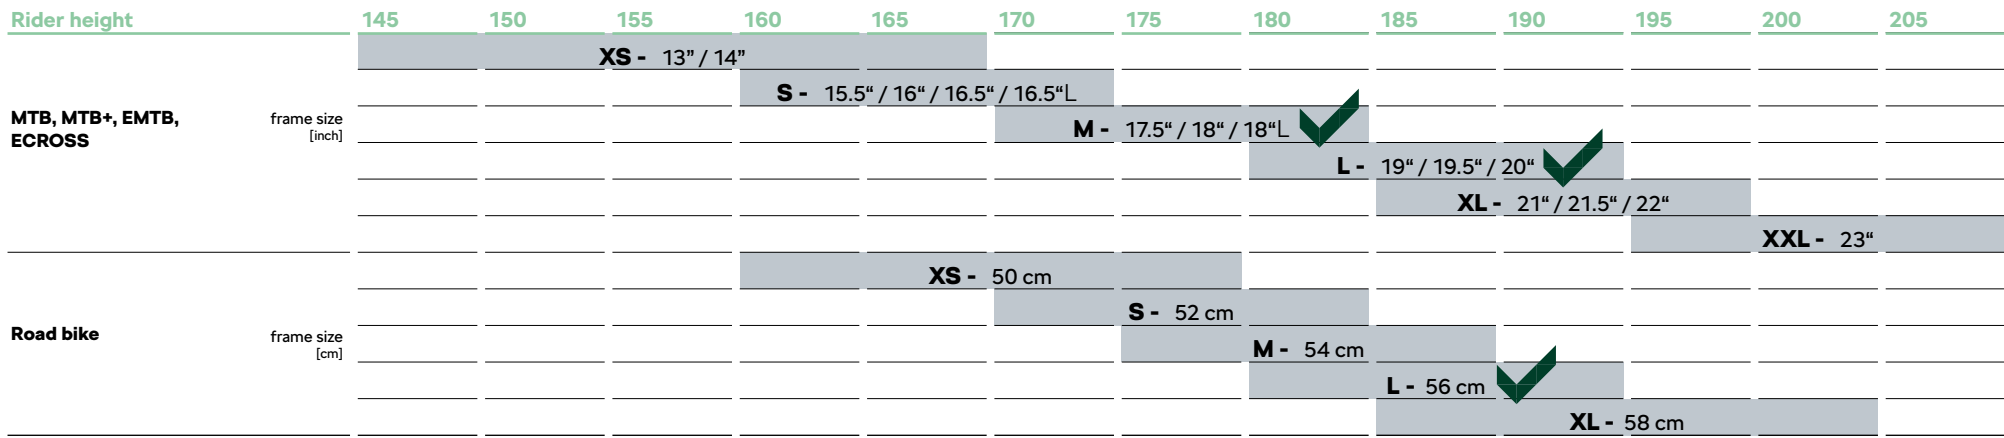

The reach will affect your riding position quite significantly. You should not feel sitting too straight with your arms bend too much, neither leaning forward trying to grasp the handlebar.

If your sitting height is bigger than average, then the larger of the two frame sizes is recommended and vice versa.

**Size selection** Recommended bike size

✓ = These bike sizes are currently available

Some components can be replaced by the supplier (the front forks, brake discs, brake levers, seats) depending on availability.

Some images as well as the supplied bike parts may differ from the described specification.
