Technical Data

Fresh style, powerful performance

Welcome to the realm of Fabia – the urban legend, the city's stylish companion. This versatile vehicle might be known by many names, yet its true essence is defined by the individual at the wheel. Radiating freshness, distinctiveness, and an eagerness to impress, the Škoda Fabia effortlessly graces both bustling streets and glamorous catwalks.

A myriad of intricate details sculpt its ready-to-go demeanour, while its striking wheels captivate onlookers. The lively engine hums with vitality, complemented by sharp LED lights that pierce through the night. State-of-the-art safety systems and an array of connectivity features keep you safe, secure, and connected, while the spacious interior is primed to carry all the admiration you'll garner.

Personality, enhanced. Style, unmistakable. Colour Concept gives Fabia a two-tone look made for city life. Choose Black Colour Concept: black roof, wing mirrors and alloy wheels in confi dent contrast. Or go Grey Colour Concept: grey roof, wing mirrors, front grille frame and alloy wheels for a clean, crafted fi nish. With up to 22 combinations, you can dress your Fabia in your favourite shade and dial up its personality.

Embrace unparalleled comfort while expressing your true self. The Fabia transcends the role of a mere city car – it's a timeless original, expertly remixed for urban magnificence.

The look of confidence

With wider grille and sleek, sharp headlights, the Fabia emphasises it's wider, lower, more dynamic stance. A big car in a compact package. Whether you choose the elegant bright trim or the sporty look of gloss black, the Fabia will stand out anywhere – and fit into the finest company. It is nimble but helps you think and live big.

Stylish from roof to bumper

The extended roof spoiler and vertical finlets framing the rear window enhance the car's dynamic aesthetics. The sleek Škoda lettering on the back adds a touch of modern elegance, while the black bumper insert imparts a lighter, sportier vibe to the rear.

Travel comfort class

The best tech tweaks are those that make your life easier without you even noticing them. We followed this motto when we designed the Fabia. Everything from the smallest design details to practical function is conceived to make your journey truly comfortable.

Foldable mirrors

The automatically retractable external side-view mirrors fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

KESSY

You will quickly get used to the convenience of KESSY (the Keyless Entry, Start and exit SYstem), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

Getting out is optional

Stepping into the car feels like stepping up in class. The Fabia offers a spacious interior that features high-quality materials and unique possibilities in terms of design, technology and comfort. When inside, you'll never have to step out of your comfort zone. The dashboard is decorated with chrome details, such as the air ventilation and instrument panel cluster frames, while the steering wheel stands out with its Unique Dark Chrome finish, all these features combines aesthetics with perfect functionality.

Always charged

The magnetic holder charges one phone using the Qi2 standard at up to 25 watts and holds it securely in place for best charging efficiency. The compartment is easily accessible and provides ventilation for the device to prevent it from overheating.

Keep everything organised

Maintaining order is essential, whether at home or in your car. The Fabia makes it easy with its spacious luggage capacity of 380 litres, expandable to 1,190 litres when the rear seats are folded down. Coupled with a variety of practical features, everything will have its designated place.

Capacity

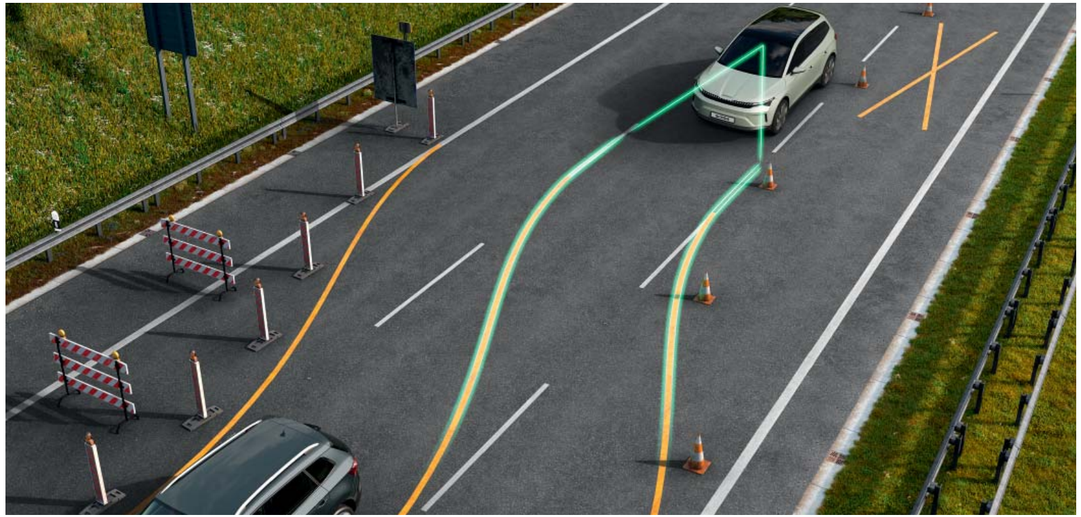

The luggage compartment of the Fabia with a basic volume of 380 litres can be extended up to 1,190 litres by folding down the rear seats.

Double floor

The double floor divides the luggage compartment into two practical levels, providing extra storage space beneath the boot floor, discreetly hidden from the outside.

Travel Assist

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel. The Travel Assist system comes exclusively in combination with the Virtual Cockpit.

Adaptive Cruise Control

Using a radar device in the front grille, in addition to its basic cruise control function, Adaptive Cruise Control (not shown) maintains a safe distance from vehicles in front of you. This system operates up to speeds of 210 km/h. Depending on various factors, Predictive Adaptive Cruise Control (shown) is also available. For more information, contact your Škoda partner.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Additional experts on board

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

Front Assist

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

Side Assist

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

Selection

Lodge

The combination of black/grey upholstery and grey fabric pad with grey stitching gives the Lodge interior a feeling of luxury, which is underscored by the grey metallic décor and door handles.

Dynamic

Suedia pad with stitching
Grey metallic décor
Suedia/fabric upholstery

Dynamic

Dynamic

The Dynamic interior is dominated by the pair of sports seat upholstered in combination of black Suedia and quilted fabric. The sporty black Suedia is repeated on the dashpad, which is highlighted by the grey metallic décor, door handles and centre console. The sporty style is completed with the multifunction 3-spoke sports steering wheel upholstered in leather, aluminium sports pedals and black headliner.

Monte Carlo

Make an impression wherever you go

The Fabia has always exuded strength and confidence. The Fabia Monte Carlo, featuring unique black elements, elevates its design to convey even greater emotion and enhanced dynamism.

Stylish rear

The rear showcases sleek black accents, including inscriptions on the tailgate and a diffuser. The car's dynamic appearance is further accentuated by SunSet tinted windows, which also protect the interior from overheating on sunny days.

Black front and side

The glossy black features such as the front grille frame, add-on part on the front bumper spoiler, door sill covers, and external side-view mirror caps are always accompanied by black brushed alloy wheels (optional 17" Procyon shown).

Unlock premium performance

Stepping inside the Fabia Monte Carlo gives you a sense of distinction. The interior, adorned with red metallic accents and Carbon décor, proudly showcases its sporty style while maintaining practicality.

Monte Carlo

The standard equipment of the Monte Carlo version includes unique sports seats and sports steering wheel with the Monte Carlo plaque, as well as LED ambient lighting, Bluetooth, electric front and rear windows, and height adjustable front seats. The overall style is finished with Sunset tinted windows, glossy black details and front door sill covers.

The unmistakably sporty style of the Monte Carlo versions continues with the design of the interior. The focal point are the sports seat that will catch your attention with their sporty red and grey accents. The sporty theme continues with red metallic décor, door handles, centre console and dash pad in metallic red, a carbon fabric pad with white stitching and black headliner.
