**Technical Data**

## Make your choice your voice

Fab town. Urban legend. City slicker. This car may have many names. But there is nothing that defines the Škoda Fabia more than the person driving it. Fresh, distinctive, and eager to impress, this car is equally at home next to the sidewalk or catwalk. Numerous details shape the car's raring-to-go attitude while the bold wheels have the crowds staring at its feet. Not to mention a perkier engine, sharp LED lights, high-level safety systems, a host of connectivity features, and enough room to pack all the compliments.

Being comfortable while being yourself has never been easier. The Fabia isn't just the do-it-all city car. It's a classic original that's been remixed to urban perfection.

#### **The look of confidence**

With wider grille and sleek, sharp headlights, the Fabia emphasizes it's wider, lower, more dynamic stance. A big car in a compact package. Whether you choose the elegant bright trim or the sporty look of gloss black, the Fabia will stand out anywhere – and fit into the finest company. It is nimble but helps you think and live big.

#### **Stylish from roof to bumper**

The extended roof spoiler and vertical finlets that border the rear window complete the dynamic look of the car. The Škoda lettering across the back exudes modern elegance. The black bumper insert gives the rear a lighter, more sporty appearance.

## Travel comfort class

The best tech tweaks are those that make your life easier without you even noticing them. We followed this motto when we designed the Fabia. Everything from the smallest design details to practical function is conceived to make your journey truly comfortable.

### Retractable mirrors

The automatically retractable external side-view mirrors fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

### KESY

You will quickly get used to the convenience of KESY (the Keyless Entry, Start and exit SYstem), which allows you to lock/unlock your car and start the ignition/switch off the engine without inserting the key.

## Colour Concept

Using the Colour Concept in black or grey, which offers 23 combinations, you can dress up your car in your favourite colour and give it more personality. The black Colour Concept version allows you to combine a black roof, external side-view mirror caps, and alloy wheels with a different body colour (except Magic Black and Energy Blue). In addition to the grey roof, mirror caps, and wheels, the grey Colour Concept (not available for Graphite Grey and Energy Blue), also comes with the front grille frame in grey.

## Getting out is optional

Stepping into the car feels like stepping up in class. The Fabia offers a spacious interior that features high-quality materials and unique possibilities in terms of design, technology and comfort. When inside, you'll never have to step out of your comfort zone.

### Decorative elements

The Fabia dashboard, decorated with chrome details, such as the air ventilation and instrument panel cluster frames, combines aesthetics with perfect functionality.

### Virtual Cockpit

With its 10" display, the digital instrument panel (Virtual Cockpit) can offer you on-board computer specifications in combination with other necessary information for your trip, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the multifunctional steering wheel.

### Roominess

The knee and headroom in the rear raises the Fabia to the level of high-class cars.

### Storage Compartment

Rear passengers can now also have everything they need easily to hand. The storage compartment fits over the centre tunnel and provides space for smaller items, phones, or drinks.

## A home for everything

It's always better to have your things in order. Whether it's at your home or in your car. That can be easily achieved in the Fabia. Thanks to its generous luggage capacity and a host of simply clever details, everything will stay in the right place.

### Capacity

The luggage compartment of the Fabia with a basic volume of 380 litres can be extended up to 1,190 litres by folding down the rear seats.

### Multifunctional pocket

Use the available space in the boot cleverly. A multifunctional pocket designed to stow clothing items and long, lightweight objects will come in handy.

## Travel assist

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel. The Travel Assist system comes exclusively in combination with the Virtual Cockpit.

### Adaptive Cruise Control

Using a radar device in the front grille, in addition to its basic cruise control function, Adaptive Cruise Control (not shown) maintains a safe distance from vehicles in front of you. This system operates up to speeds of 210 km/h. Depending on various factors, Predictive Adaptive Cruise Control (shown) is also available. For more information, contact your Škoda partner.

### Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

## Additional experts on board

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

### Front Assist

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

### Side Assist

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

### Studio

Black pad  
Glossy black décor  
Fabric upholstery

## Essence

The standard equipment of the Essence version includes 8" Škoda Infotainment, 8" Digital Display, manual air conditioning, electric front windows, rear parking sensors, LED headlights and more.

### Studio

The Studio interior offers a modern, practical design with a combination of black/grey upholstery and black pad, glossy black décor.

### Loft

Fabric pad  
Grey metallic décor  
Fabric upholstery

## Selection

The standard equipment of the Selection version includes multifunction steering wheel, LED rear lights, fog lights, Easy Start and Easy Light Assist, an umbrella in the driver's door and more.

### Loft

The Loft interior achieves the stylish, contemporary look thanks to the grey seats with grey stitching and grey fabric textile pad and metallic grey décor.

### Lodge

Fabric pad with grey stitching  
Grey metallic décor  
Fabric upholstery

## Selection

### Lodge

The combination of black/grey upholstery and grey fabric pad with grey stitching gives the Lodge interior a feeling of luxury, which is underscored by the grey metallic décor and door handles.

### Suite

Fabric pad with copper stitching  
Copper metallic décor  
Fabric upholstery

## Selection

### Suite

The centrepiece of the Suite interior is a stylish combination of copper metallic décor and door handles with copper stitching on the grey fabric pad and seats upholstered in a combination of copper and black colours.

### Dynamic

Suedia pad with stitching  
Grey metallic décor  
Suedia/fabric upholstery

## Dynamic

### Dynamic

The Dynamic interior is dominated by the pair of sports seat upholstered in combination of black Suedia and quilted fabric. The sporty black Suedia is repeated on the dashpad, which is highlighted by the grey metallic décor, door handles and centre console. The sporty style is completed with the multifunction 3-spoke sports steering wheel upholstered in leather, aluminium sports pedals and black headliner.

# Monte Carlo

## Not to be missed on any road

The Fabia model always radiates strength and confidence. The Fabia Monte Carlo design with specific black features results in an even more emotional expression and greater dynamics.

### Stylish rear

The rear features glossy black elements such as inscriptions on the 5th door (Škoda, model name) and diffuser. The car's dynamic appearance is further accentuated by SunSet tinted windows, which also protect the interior from overheating in sunny weather.

### Black front and side

The glossy black features such as the front grille frame, add-on part on the front bumper spoiler, door sill covers, and external side-view mirror caps are always accompanied by black brushed alloy wheels (optional 17" Procyon shown).

## Enter an exclusive club

Stepping inside the Fabia Monte Carlo makes you feel exceptional. The interior, decorated with red metallic details and Carbon décor, confidently parades its sporty style without losing any of its practicality. Plenty of attractive equipment for your comfort and safety, including sports steering wheel, instrument panel in Monte Carlo design (optional Virtual Cockpit shown), LED ambient lighting, and advanced assistance systems, also make this car fun to drive.

## Monte Carlo

Fabric pad  
Carbon décor  
Fabric/ Carbon upholstery

Monte-Carlo is registered trademark by Monaco Brands

## Monte Carlo

The standard equipment of the Monte Carlo version includes unique sports seats and sports steering wheel with the Monte Carlo plaque, as well as LED ambient lighting, Bluetooth, electric front and rear windows, and height adjustable front seats. The overall style is finished with Sunset tinted windows, glossy black details and front door sill covers.

The unmistakably sporty style of the Monte Carlo versions continues with the design of the interior. The focal point are the sports seat that will catch your attention with their sporty red and grey accents. The sporty theme continues with red metallic décor, door handles, centre console and dash pad in metallic red, a carbon fabric pad with white stitching and black headliner.

# Accessories

## **Genuine Accessories. A symphony of style and function.**

Perfect tailoring brings out the best in your Fabia, giving it a personality that truly shines. Customise your car with Škoda Genuine Accessories and watch it transform into a masterpiece of style and functionality.

Make a statement with your choice of wheels or wheel covers, featuring brushed and metallic-coloured options. Elevate your Fabia's allure with sleek black mirror caps and add a touch of sophistication to the interior with elegant pedal covers and foot mats.

On the practical side, delight in a variety of Smart Holders, hooks, and entertainment packages designed to keep passengers engaged. Ensure their safety with our extensive range of child safety seats, and let your furry companions travel in comfort with specially designed seat belts and protective seat covers.

Discover endless possibilities with the Škoda Genuine Accessories range for your Fabia, where every journey becomes an adventure in style and comfort.

#### Towbar rack
