Technical Data

For all that you are

You are what you do. And if you play a lot of roles in life, then you need a playmate who can keep up with your pace. Someone like the new Škoda Scala.

The Scala's do-it-all attitude is dressed in a strikingly unique design. Inside, the Škoda Scala continues to tick all possible boxes with its host of comfort, connectivity and safety features. The modern driver will certainly feel empowered by must-haves like the LED headlights, Climatronic panel, Virtual Pedal and immersive infotainment display.

That's what we call versatile. That's what we call Škoda.

Active meets attractive

At the first glance, you'll notice the sleeker headlights. The wider front grille and distinctively sporty-shaped bumper complete the new, more dynamic look of the Scala. The sportier rear bumper sets off the whole style. Still as practical as ever, but now even more attractive.

Panoramic roof

On the outside, the panoramic roof underscores the sleek, stylish look. On the inside, it brightens the interior and opens the view of the sky above.

The sleeker, sharper taillights are the prominent feature of the new Scala's rear. The rear bumper with integrated diffuser and eye-catching reflectors adds a sporty touch. The elongated rear window with spoiler and Škoda lettering remains as classy as ever.

Virtual Pedal

Hands full? No problem! With Virtual Pedal, a simple kicking motion under the bumper is enough to open the boot. Available in combination with KESSY and the power-operated boot.

KESSY

No more hassle looking for your keys. With the Keyless Entry, Start, and Exit System, the doors unlock or lock again with just a touch of the door handle. You just need to have the key in your pocket.

Living room. Lounge. Office.

Driver-focused and sharp, yet functional and spacious for all passengers. The centerpiece of the new interior is the 10" Virtual Cockpit, complemented by the 9" Škoda Navigation system centrally located on the dashboard. The dashboard itself draws attention with a choice of new upholstered decors made of fabric, Suedia, or carbon-look materials. These are paired with redesigned seat upholstery across all trim levels. The new ambient lighting, featuring two switchable colors, enhances the stylish aesthetic.

Climatronic

Maintaining a pleasant climate on board is now easier than ever. The Climatronic air conditioning system is fitted with a pair of buttons that allow you to adjust the air flow without taking your eyes off the road.

Home to all your digital avatars

In today's digital age, the Scala is the perfect everyday companion for all your modern demands. Whether you need to charge your devices or access the latest information on a large screen, the Scala has got you covered.

Always charged

The magnetic holder charges one phone using the Qi2 standard at up to 25 watts and holds it securely in place for best charging efficiency. The compartment is easily accessible and provides ventilation for the device to prevent it from overheating.

Connectivity

You can display your apps on the Infotainment display using Apple CarPlay and Android Auto either wirelessly or via the USB-C ports, which also offer fast 45 W charging for your devices.

Škoda Connect: Take the online world with you

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. Škoda Connect is your gateway to a world of unlimited communication options.

MyŠkoda

Enjoy full control of your car. Download MyŠkoda application Essentials and access all necessary services anytime, whether it's driving data, fuel range, lock and unlock or even where you last parked

Online Traffic Information

With Online Traffic Information, you always receive the latest details, saving you time and the stress of sitting in traffic jams. If enabled, the navigation system will automatically recalculate the route to ensure you arrive at your destination on time.

Box for rear passengers

Rear passengers will enjoy the smart storage box on the centre tunnel. It includes a flexible cupholder, which can be folded away when not used to make more room for anything they might want on hand.

Always more than meets the eye

When embarking on your adventures, it's beneficial to have a companion that handles all the details. The Škoda Scala excels at this with its numerous features. Everything you might need is easily on hand in the spacious interior full of storage options.

Double pocket

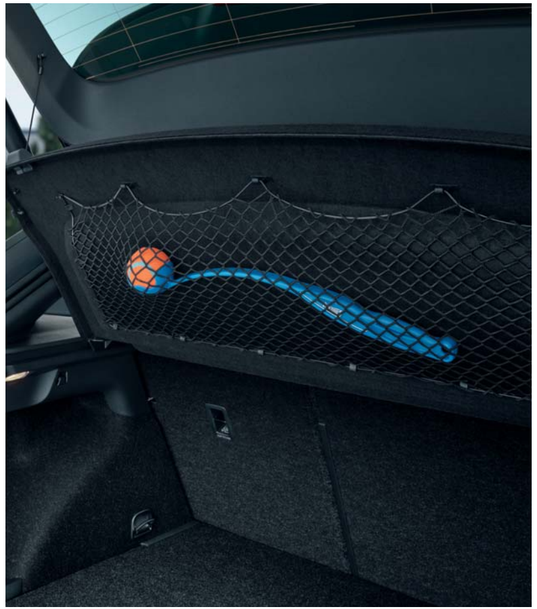

Keep your things organised with the double pockets on the rear sides of the front seats. The larger one is perfect for a notebook or laptop computer, while the smaller one nicely fits a smartphone.

Net programme

Everything in its place and easy to see. This set of three nets keeps your items from moving around while keeping them in good view.

If it matters, it fits

Wherever your journey takes you, it's fantastic to have ample space for all your essentials. It's even better when items are well-organized and securely stored. With 467 litres of luggage capacity and a multitude of smart features, all your belongings will find their place and remain precisely where you want them to be.

Net pocket

Lighter items that need to be on hand even when the boot is full can be stored in the practical net, out of sight under the luggage room cover.

Cargo elements

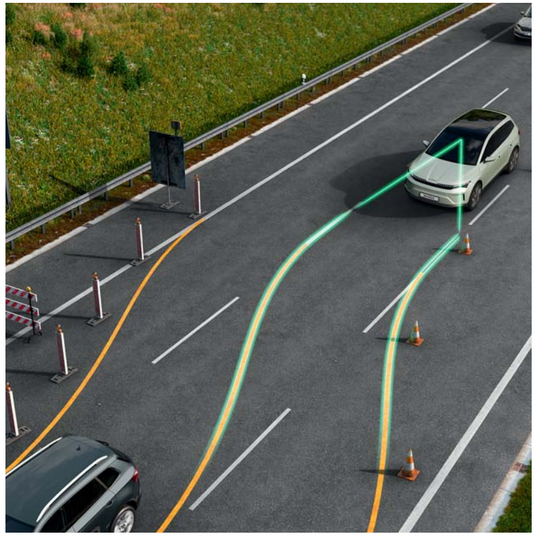

The easy way to secure larger items. Cargo elements are fixed to the floor using Velcro and can be folded into any angle.

Predictive Adaptive Cruise Control

Using a radar device, camera equipped with traffic sign recognition, GPS technology and detailed information from the road map, PACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or when entering an area with a reduced speed limit. The system increases driver comfort and driver safety while also reducing fuel consumption and CO_2 emissions.

Even safety can multitask

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, the system issues a visual and audible warning and eventually disengages.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

Side Assist

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

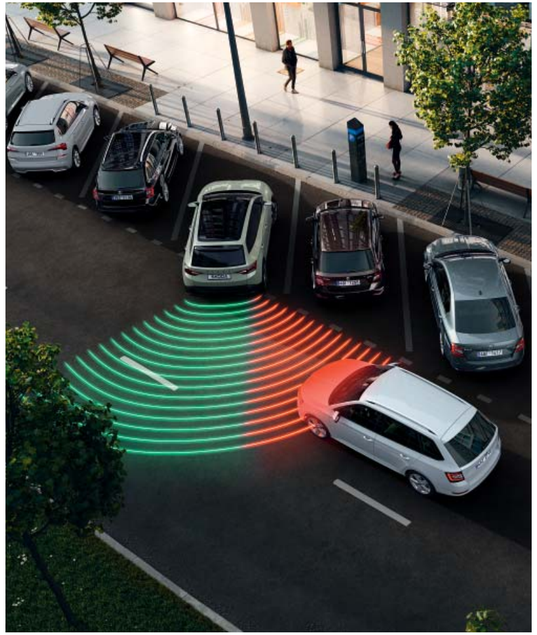

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Matrix LED headlights

The TOP LED Matrix headlights feature Matrix Beam Function. This allows you to use the high beams continuously, without blinding other drivers. Using a windscreen camera, the Matrix Beam Function responds to the traffic situation and turns off only some segments of the light. Other segments are turned on and illuminate the road. The Matrix Beam Function also uses information from the navigation system. Thanks to it, the high beams will only turn on when you are out of a built-up area.

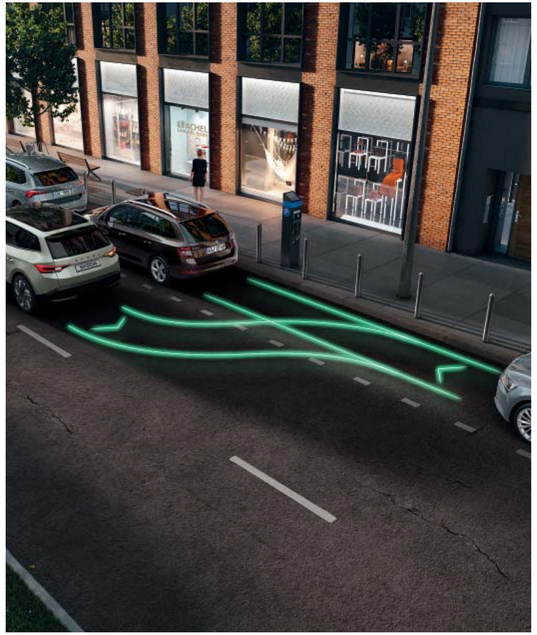

Eyes up front. And behind.

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

Rear Traffic Alert

Using the Side Assist sensors in the rear bumper, Rear Traffic Alert helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

Park Assist

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place and safely parks in a row of parallel or perpendicularly parked vehicles.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Studio interior

Grey metallic pad with glossy black décor
Black/grey fabric upholstery

Essence

The standard equipment of the Essence version includes 8" Škoda Infotainment, 8" Digital Display, manual air conditioning, Bluetooth, rear sensors, LED headlights, and more.

Studio

The Studio interior boasts a modern, practical design in a combination of black/grey upholstery with grey metallic pad, glossy black décor and satin black door inserts.

Loft interior

Krepp pad with glossy black décor
Krepp / black fabric upholstery

Selection

The standard equipment of the Selection version includes electric windows front and rear, multifunction steering wheel, fabric dashboard pad, height-adjustable front seats, Hill-Hold Control, Easy Start, LED fog lights, mobile phone pockets and more. The Selection trim is available with a choice of four interior design selections.

Loft

The dashboard pad upholstered in Krepp fabric, which complements the seats, also upholstered in Krepp fabric and the contrasting glossy black décor, gives the Loft interior a stylish contemporary feel.

Lodge interior

Grey Suedia pad with copper décor
Grey Suedia / black fabric upholstery

Selection

Lodge

The combination of grey Suedia pad and upholstery with copper décor and two-colour ambient lighting give the Lodge interior a feeling of luxury, underscored by the leather multifunction steering wheel, floor mats, and rear armrest.

Dynamic interior

Black Suedia pad with red décor
Black Suedia / black fabric upholstery

Selection

Dynamic

The centrepiece of the Dynamic interior are the sports seats, complemented by the sports steering wheel, black Suedia pad, and red décor. The black roof liner, sports pedal covers and door sills with “Scala” lettering complete the sporty theme.

Suite interior

Black Suedia pad with chrome décor
Black Suedia / black leather upholstery

Selection

Suite

The elegant style of the Suite interior starts with the black leather/Suedia and is further emphasised by the chrome décor and black Suedia pad. The leather steering wheel, heated front seats, and electric driver's seat complete the image of luxury.

Add character to all your characters

Inspired by the great racing heritage of Škoda. Designed to look great both on the roads above Monte Carlo and in the elegant city itself. The Scala Monte Carlo brings sporty style into everyday driving.

Winning looks

Unmistakably sporty, undeniably stylish. The aerodynamic front bumper with integrated spoiler adds dynamic flair, while the gloss black details perfectly suit whatever body colour you choose. The TOP LED Matrix headlights are part of the standard equipment.

The prominent rear bumper with gloss-black diffuser is no not only attractive to look at, but also aerodynamically efficient. Other highlights that are sure to be noticed by the drivers behind you are the elongated glazing and the gloss black lettering.

The trendiest address in any town

Monte Carlo is synonymous not only with the thrill of the famous rally but also with stylish and comfortable living. The Scala Monte Carlo embodies this spirit perfectly. The carbon-look dashboard pad and door inserts seamlessly blend elegance with a sporty, energetic appearance, further accentuated by distinctive red accents on the upholstery, a perforated leather multifunction sports steering wheel, sports pedal covers, and a black headliner. The comprehensive equipment, including Climatronic climate control, an 8-speaker stereo system, and switchable ambient lighting, ensures maximum comfort. Additionally, the Drive Mode Select allows the driver to choose between the dynamic or more luxurious aspects of the Scala's character.
