

SKODA

Cycling Collection

2025

Dear cycling friends,

We proudly introduce our latest Škoda Cycling Collection for 2025. This year's collection introduces new Gravel, Mountain, eCity and eMountain bikes and overall it comprises four models.

The Cycling Accessories chapter has been updated with new clothing including new colour combinations of Cycling jerseys. Together with our cycling gear, it significantly makes your ride safer and easier.

Bicycles inherently belong to the Škoda brand. Whether by referring to the historical origins of the brand or by sponsoring major cycling races such as the Tour de France and La Vuelta.

We believe that riding Škoda bikes will be a pleasure for you.

Enjoy your ride!

Does it matter which bike frame size I choose?

Indeed, it does. A correctly fitting bike will help you to go further for longer. Choosing the right sized bike depends on the type of the bike, your height, the inside leg measurement and your riding style. But it is not complicated as it sounds.

Some of the common mistakes that people make while setting their bikes is opting for the wrong size. Hence, bike-sizing is very important to ensure good posture and riding comforts. Most struggles remain regarding the positions of your body, which simply means your saddle or handlebar positions are not aligned to your individual needs.

How to choose correct size of the bicycle

The most important criterion that determines the size of the bike you need is your height and inseam length. If you find that you're between sizes or you're unsure of which of two frame sizes would suit you best then other factors that can be considered is your reach.

The reach will affect your riding position quite significantly. You should not feel sitting too straight with your arms bend too much, neither leaning forward trying to grasp the handlebar.

If your sitting height is bigger than average, then the larger of the two frame sizes is recommended and vice versa.

Some components can be replaced by the supplier
(the front forks, brake discs, brake levers, seats) depending on availability.

Some images as well as the supplied bike parts may differ from the described specification.
