Technical Data

Be more Elroq

The future is electric, and it's coming in all shapes and sizes. Introducing the new Elroq, where our electric cars venture into a new segment. This model offers a smaller, more agile version of our proven and beloved technology. It's also the first to feature our Modern Solid design language in series production.

On the outside, the standout feature of the Modern Solid design language is the sleek and sophisticated Tech Deck Face, destined to become the hallmark of all future Škoda electric models. The Air Curtains highlight our commitment to efficiency, making the Elroq one of the most aerodynamic Škoda models to date, with an impressive coefficient of 0.26. Equipped with battery options up to 82 kWh and various single or dual motor drivetrains, the Elroq boasts a range exceeding 570 km.

Inside, the Elroq treats both the driver and passengers to cutting-edge ergonomics and a comprehensive suite of displays and screens, including the Augmented Reality Head-Up Display.

With the new Elroq, the future isn't just electric – it's stylish and enjoyable to drive.

The world of Modern Solid

As the first production model to feature the Modern Solid design language, the Elroq captivates with its bold and dynamic aesthetics, characterised by sharp lines and sleek shapes. The striking design is accentuated by elements such as the sharply-styled headlights and the newly designed front bumper with distinctive Dark Chrome front spoiler.

Tech Deck Face

The Tech Deck Face is a modern, glossy black interpretation of the traditional Škoda grille, which also houses functional elements like front radar. It is flanked by the sleek, energetic running lights, with the main headlights positioned lower. The optional Light Band illuminates the entire front, creating a striking visual effect.

Aerodynamic rear

The powerful Modern Solid design language continues in the rear, with the large black diffuser with Unique Dark Chrome insert and angular Air Curtain outlets on the sides. The rear lights with vibrant turn signals are a subtle finishing touch.

Virtual Pedal

The tailgate can be equipped with a Virtual Pedal enabling contact-free access. This is available exclusively in the package with the electrically-controlled 5th door and KESSY.

KESSY

The latest version of KESSY (Keyless Entry, Start, and Exit System) allows you to unlock or lock the car using any door. Additionally, the Walk Away feature ensures the car locks itself automatically once you leave it behind.

Select your look

The four Design Selections allow you to pick your favourite style for the roomy, spacious interior. Pick the minimalist yet stylish Studio, or go all-in with the leather-upholstered L&K. Or stay in the middle and go for the Lodge Design Selection with orange seatbelts.

Cockpit of the future

The compact Virtual Cockpit display in the Elroq is meticulously designed to present only the essential information for an electric car driver. In addition to standard driving data, you can prioritise navigation, driving assists, or both. All content can also be projected onto the Augmented Reality Head-Up Display, including "floating"navigation arrows.

Always in control

Everything you need, exactly where you need it. The integration of the Virtual Cockpit, 13" Infotainment display, and Augmented Reality Head-Up Display ensures that the most vital details are always right in front of you, allowing you to concentrate on what truly matters.

The new steering wheel

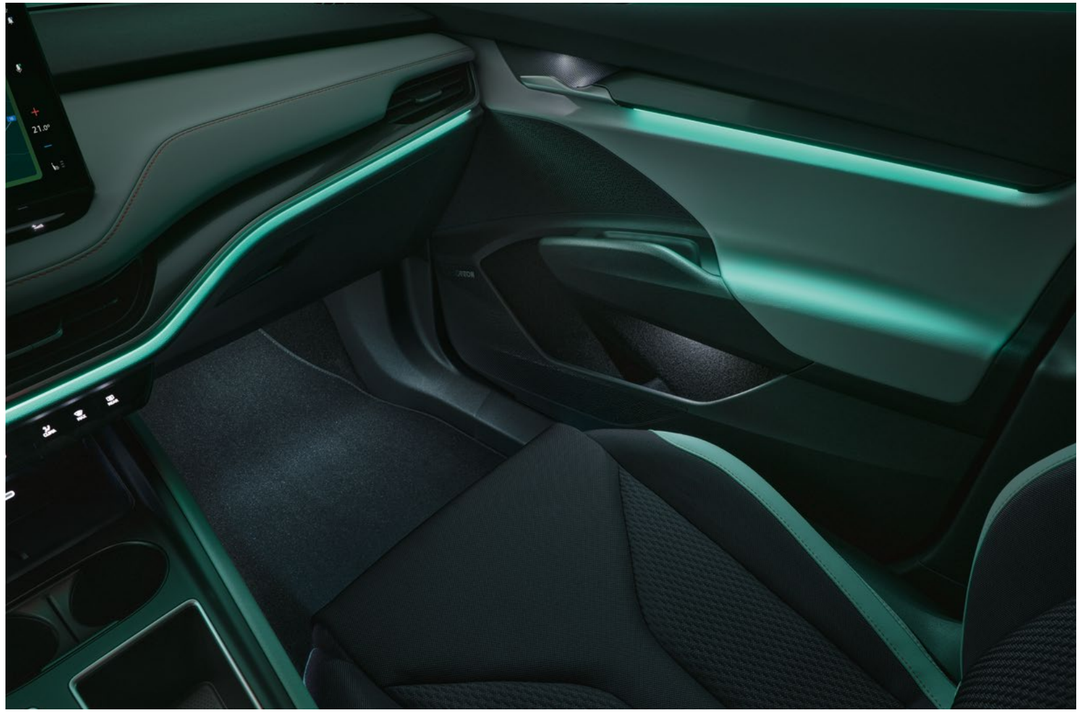

The multifunctional steering wheel features leather upholstery as standard. The Elroq is also the first Škoda model to showcase lettering instead of the traditional badge, aligning with the Modern Solid design language.

Infotainment

The world at your fingertips. The Škoda Infotainment system, equipped with a 13" touchscreen, provides an enhanced and clearer display of all the information and entertainment features, making your travels truly enjoyable. The new generation of MIB system ensures smoother and faster operation.

Electric seats

The seats offer a sporty shape with lots of lateral support, yet remain supremely comfortable. They are electrically adjustable and offer a memory function. The upholstery is partly made of recycled fabrics.

Ambient lighting

The attractive look and tactile surfaces of the interior are complemented by the ambient lighting, offering a wide selection of colours to match your mood at any moment. Simple, yet so varied!

Always charged

The magnetic holder charges one phone using the Qi2 standard at up to 25 watts and holds it securely in place for best charging efficiency. The compartment is easily accessible and provides cooling for the device to prevent it from overheating. This compartment is easily accessible and offers space for a second smartphone beside the one being charged.

Jumbo Box and the centre console

Electronic devices can be safely stored in the Jumbo Box located in the front armrest, while small items can be placed in a removable tray. The centre console also features two easy-open cupholders.

Rear armrest

The rear armrest with a pair of cupholders can be folded out when the rear middle seat is unoccupied. The cupholder cover helps to stabilise the drinks in case of heavy braking.

Little things that make a big difference

Even the simplest details can make your everyday experience much better. A plethora of subtle, ingenious ideas that will surprise you and make your life on the road much easier.

Storage compartment

Rear passengers can now keep everything they need within easy reach. The storage compartment, which fits over the centre tunnel, offers space for personal belongings, phones, and drinks.

Boot space

In its standard configuration, the Elroq offers 470 litres of cargo space. If you need even more space, you can increase the useable volume to 1,580 litres by folding down the rear seats. And it is not just about space – with its various smart features and compartments, the Elroq takes the ease of transporting both small and large items to another level.

Charging cable net

The net pocket located under the boot cover, included in the package with the Virtual Pedal, offers a convenient spot to store your charging cable, ensuring it's always accessible even when the boot is full.

Frunk

Keep your charging cables and other necessities always to hand. The front trunk, or frunk, under the front bonnet is always accessible, even when the luggage compartment is full. Its 21-litre capacity provides enough space for cables and various small items.

230 V socket in the boot

Power for your appliances, anywhere you go. With 3.6 kW of power and 16 amperes, you can easily run most household and camping appliances such as refrigerators, grills, and kettles, or even power tools like drills or electric chainsaws. Turn your car into a mobile power station!

Connectivity

With MyŠkoda application, you can access important information and controls remotely from your phone. The Elroq also comes with Pay to Park and Plug & Charge functions. With Apple CarPlay or Android Auto, you can safely and easily use selected smartphone apps on the infotainment screen.

Traffic Sign Recognition

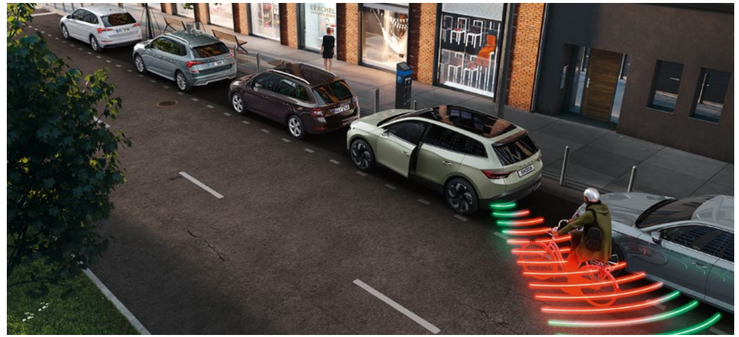

Never miss a traffic sign – or a traffic light. The improved Traffic Sign Recognition system is now able to distinguish traffic light colours and reacts to stop signs. It also displays the current speed limit and other relevant traffic signs.

Travel Assist

Your co-pilot is now even better. The improved Travel Assist 3.0 is now able to follow the vehicle in front and offers improved lane guidance and lane change. In case of emergency, the car is able to stop safely on the side of the road. Using online data allows for more precise reactions around traffic islands, railway crossings, and speed bumps, as well as improved traffic sign recognition, including temporary ones. Also new is the ability to detect traffic lights and all the sensors have also been improved and updated.

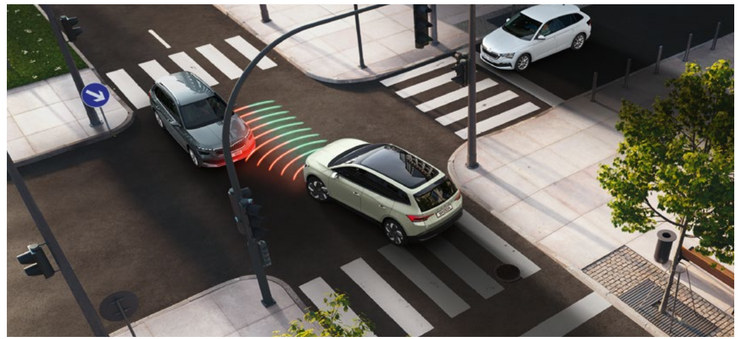

Door Opening Warning

When you stop your car and open the door (to get out), the system can detect other road users, such as vehicles, cyclists, runners, pedestrians, etc. up to a distance of 35 m. If it detects an approaching object, it warns the crew in the front and rear, both visually and audibly, about getting out of the vehicle.

Turn Assist and Collision Avoidance Assist

Turn Assist monitors opposing traffic when turning left at low speeds between 2–15 km/h. In critical situations, it can stop the vehicle and turn on the warning lights. Collision Avoidance Assist supports the driver by actively increasing the steering moment in the event of an impending collision with a pedestrian, cyclist, or another vehicle – ideally preventing the accident with a controlled evasive manoeuvre.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Reversing Assist

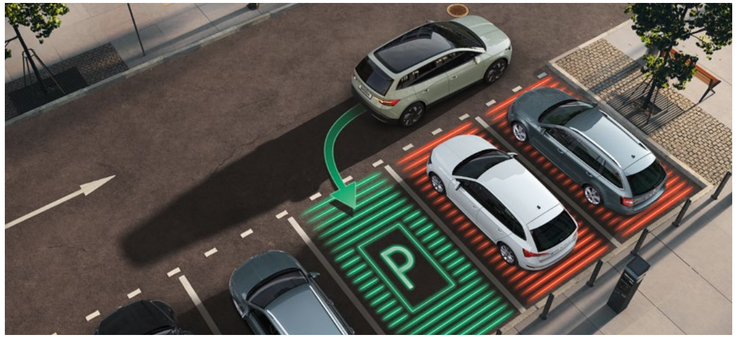

Reverse easily even from a difficult spot. The Reversing Assist remembers up to 50 metres of your route and will automatically reverse back in the exact same way. Just tap the button on the infotainment screen.

Additional experts on board

To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

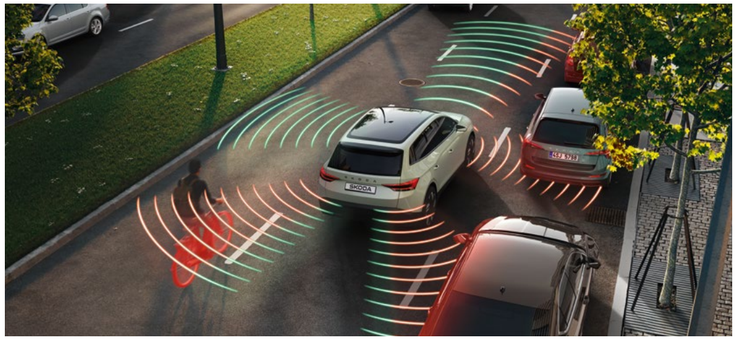

Intelligent Park Assist

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Elroq will autonomously drive itself into the parking space, without driver having to touch the wheel or pedals.

Pre-Crash Assist

Your car can now predict a collision coming from any direction – not just from the front, but also from the sides and rear. If an accident is imminent, it prepares for it by pre-tensioning the seatbelts and closing the windows and roof.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Remote Trained Parking

Train your car to perform a parking manoeuvre and oversee the process from the outside. Remote Trained Parking is a highly advanced parking assistant which enables the car to perform familiar parking manoeuvres without the driver being present in the car. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to a parking space. After that, as soon as the car recognises the scanned route, it will ask you via the infotainment whether it should take control. Following your approval, the vehicle will park itself, as long as you stay next to it and monitor the process for safety. You simply monitor it from the outside, using your phone app.

Trained Parking

A highly advanced parking assistant is used to automatically complete a parking manoeuvre in a familiar environment, e.g., at home. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to the garage or a parking space. After that, as soon as the car recognises the scanned route, it will ask you (via the infotainment) whether it should take control. Following your approval, the vehicle will park itself. You simply monitor it from the driver's seat.

Crossroad Assist

Hard to see cars, bikes, or pedestrians at intersections? This system detects them using front corner radars and displays a visual warning on the Virtual Cockpit. It works from 0 to 60 km/h.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Studio interior

Black textile pad
Black grained décor
Grey fabric upholstery

Design Selections for the interior

With Design Selections, you can create a space that suits your style and personality. Each Design Selection tastefully pairs carefully selected upholstery materials and colours with dashboard décors, specific details, and even comfort features. Select the design that suits you best!

Design Selection Studio

The grey fabric seat upholstery with black textile dashboard and door pads with stitching creates a quiet, elegant atmosphere, set off by the black grained décor on the dashboard and doors.

Loft interior

Grey Recytitan pad with green stitching
Anthracite décor
Grey artificial leather/Recytitan upholstery with green stitching

Design Selection Loft

The seat upholstery combines artificial leather with Recytitan fabric with recycled content in elegant grey colour with green stitching. It is tastefully complemented by the glossy anthracite décor and Recytitan dashboard and door pads in grey colour with green stitching.

Lodge interior

Grey artificial leather pad with orange stitching
Fairy Dust décor
Grey artificial leather/black Technofil upholstery

Design Selection Lodge

The seat upholstery in a combination of artificial leather and Technofil fabric with recycled content in black and grey colour contrasts with the orange stitching and seatbelts. The Fairy Dust décor on the dashboard and doors is complemented by the grey artificial leather dashboard pad with orange stitching.

Suite Black interior

Leatherette pad with Cognac stitching
Diacut Cross décor
Black leather/leatherette upholstery with Cognac stitching

Design Selection Suite Black

The elegant black colour on the seat upholstery is crafted in a combination of real and artificial leather with Cognac stitching. It is exquisitely complemented by the Diacut Cross décor and door and dashboard pads in stunning artificial leather with Cognac stitching.

* Ventilated seats will be available later.

L&K interior Shell

Leatherette pad with Cognac stitching
Piano black décor
Shell leather upholstery with Cognac piping

Design Selection L&K Shell

Created for the most discerning customer, the L&K interior is ingrained with an unmistakable sense of elegance and style. The leather seats with contrasting Cognac piping invite you to sit inside. The same colour combination is replicated on the leatherette pad with Cognac stitching, and the stylish look is completed with Piano black décor and black headliner.

Sportline

Everyday adrenaline

Efficient doesn't mean boring! The Elroq Sportline adds a spark of dynamics to the overall package, with blacked-out trim and side mirrors, unique badge, and specific wheels. The Sportline Design Selection is available for all battery versions.

Style and functionality

The black glossy features, such as the exterior side-view mirror caps, side window frames, roof railings, and inscriptions on the tailgate bring more dynamism and emotion to the vehicle's appearance. The full LED Matrix headlights and 20" Vega Black alloy wheels come as standard. The look is completed by a black badge with Sportline lettering on the side.

Sporty elegance and comfort

The Sportline Design Selection stands out with its energetic design, exclusive details, and high-quality materials. It features front sports seats upholstered in Suedia artificial leather, a leatherette dashboard pad with grey stitching, Carbon décor, and a black headliner, offering a unique blend of style and comfort.

Sportline interior

Leatherette pad with grey stitching
Carbon décor
Suedia/leatherette upholstery with grey stitching

Design Selection Sportline

The sporty ambience aboard is created by the upholstery in a combination of grey Suedia artificial leather with leatherette. The Carbon décor and leatherette dashboard and door pads with contrasting grey stitching provide the perfect finishing touch.

RS

Recharged with speed

Experience the electric power in a compact, agile package. With two motors providing 250 kW, the Elroq RS is electrifying both on a city run or a spirited drive in the hills. And with a range of sporty details, it's impossible to miss.

The RS style

An exciting drive deserves an equally exciting look. At the front, the Elroq RS stands out with its unique aerodynamic black front bumper, illuminated Tech Deck Face, and LED Matrix headlights. The rear features a gloss black bumper with a prominent diffuser, complemented by a black roof spoiler. Gloss black details such as the side mirrors, roof rails, and black badging complete the stylish and dynamic appearance. Optional 21" wheels with black and silver Aero covers add the final touch to its sporty charisma. As a nod to Škoda's renowned racing heritage, the RS badge adorns the sides.

RS Lounge

Immerse yourself in the driving dynamics within the exclusive ambiance of the RS Lounge Design Selection. High-quality materials provide a delightful tactile experience throughout the cabin. The seats feature a combination of black leatherette and Suedia upholstery, which is mirrored on the dashboard pad and door panels. The Carbon décor on the dashboard and contrasting lime green stitching throughout create a sporty ambience, encouraging you to truly savour the dynamic experience offered by the RS model.

RS interior

Suedia pad with lime green stitching
Carbon décor
Leatherette/Suedia upholstery with lime green stitching

Design Selection RS Lounge

The seat upholstery comes in a combination of leatherette and Suedia in black, highlighted with contrasting lime green stitching. The Carbon décor on the dashboard and doors is complemented by the Suedia black pad with contrasting lime green stitching.

Accessories

Genuine Accessories that perfectly fit your car

It's the finishing touches that make a car truly yours. Tailor your Elroq to your taste and needs with Škoda Genuine Accessories and enjoy a bespoke experience.

Enhance the looks with a choice of wheels and design details like mirror caps or specific door sills. Give the interior a more upscale look with premium carpets or make it more rugged with all-weather mats.

There are also other ways to make your life easier. A plethora of holders, hooks, charging cables and smart ideas like door-mounted bins and entertainment packages for rear passengers will make your travels a real joy.

The safety of you and your passengers, big and small, as well as your four-legged friends, is always our first priority. That's why we offer not only a comprehensive range of child seats, but also seatbelts for your dogs.

Anything you need to take with you will find its secure place in the boot thanks to various clever features and ideas.

Make your Elroq just perfect for you.

Can be used with snow chains.

All listed wheels are sold without centre caps; the caps can be purchased separately.
* Valid for Elroq 50/60
** Valid for Elroq 85/85x/RS

Technical Data

Technical specifications	Selection 60	Selection 85	Selection 85x	RS
Engine				
Power (kW)	140	210	220	250
Torque (Nm)	350	545	134 (front); 350 (rear)	134 (front); 545 (rear)
Battery capacity (kWh) – gross	61	82	82	82
Battery capacity (kWh) – net	58	77	77	77
Performance				
Maximum speed (km/h)	160	180	180	180
Acceleration 0–100 km/h (s)	8.5	6.6	6.2	5.4
Range – WLTP (km)	408–450	523–577	524–577	517–562
Energy consumption WLTP (kWh/100 km) – combined	15.2–16.8	15.3–17.1	15.5–17.2	15.9–17.5
Drive type				
Drive	Rear-wheel drive	Rear-wheel drive	All-wheel drive	All-wheel drive
Charging				
AC (0–100%) – power/time (according to the type of cable)	11 kW/6.5 h	11 kW/8.5 h	11 kW/8.5 h	11 kW/8.5 h
DC (10–80%) – power/time	105 kW/26 min	165 kW/29 min	165 kW/29 min	165 kW/29 min
Weight				
Kerb weight – in standard version without driver (kg)	1,957–2,090	2,056-2,179	2,123-2,246	2,143-2,248
Payload – incl. driver and extra equipment (kg)	495–628	471-594	473-596	489-594

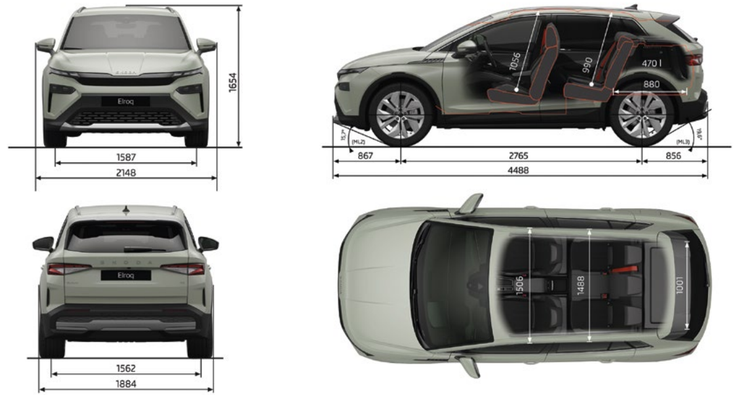

Further specifications

Body		Front brakes	Internally cooled disc brakes, single piston for the 50 and 60; two-piston for the 85 and RS
Type	5-seater, 5-door, 2-compartment	Rear brakes	Drum brakes
Chassis		Clearance (mm)	186 (for the 50, 60 and 85), 170 for the RS
Front axle	McPherson suspension with a sheet metal subframe and lower wishbones	Luggage storage space (max. l)	
Rear axle	Multilink axle, with five transverse arms, without a longitudinal arm	Without spare tyre, with rear seat backrests – upright/down	470/1,580

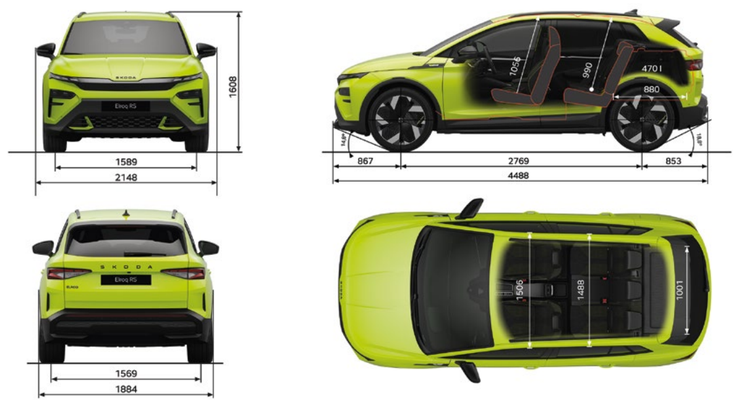

The maximum power is determined in accordance with UN-GTR.21. The maximum power is available when the high-voltage battery is at its highest possible state of charge (SoC) and operating within its optimal temperature range. The power available varies according to the driving scenario and is influenced by factors including the battery's temperature, its SoC, and the physical ageing of the high-voltage battery.

WLTP – World harmonized light-duty vehicles test procedure.

Elroq

Elroq RS

Specifications may differ depending on the battery version and chassis configuration.

Disclaimer

The specified values refer to the achievable charging power of a new vehicle. This may decrease with the aging of the battery. The aging of the battery depends on a number of factors, including the load, charge cycles, and the charging management used.
