Technical Data

There’s still plenty to explore

Every journey in life leads to new discoveries. Embark on your next adventure with the enhanced Škoda Octavia. Experience advanced technology that empowers you to work and live smarter.

The latest Octavia offers more than just an updated appearance. The new materials used in the interior are designed to be more pleasant to the touch and stylish to look at. Enhancements such as Ergo seats provide superior comfort, even on the longest drives.

From a technological perspective, the interior features two prominent, larger screens – a 10" Virtual Cockpit and a 13" Škoda Infotainment system. These displays provide a comprehensive overview of the Octavia’s new features, including the latest generation of parking assist technologies.

The engine lineup continues to feature the reliable TDI and TSI engines, now with mild hybrid options available. At the top of the range is the powerful RS version, which seamlessly blends practicality with exhilarating performance.

That’s the smart way of working and living. That’s what we call Škoda.

Classic with a sharp edge

A crystalline signature on a timeless shape. The new Octavia retains all the sleekness, space and practicality it is known for and adds a crisper style.

Spacious in style

The distinctive light signature of the LED headlights and wide, imposing grille give the updated Octavia a new, characteristic look. At the same time, it retains its classic shape and legendary functionality, including the largest luggage space in class. Once again, the Octavia shows that you actually can have it all – great looks, effective aerodynamics and lots of practicality.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. LED Matrix beam headlights provide great visibility even with other cars around and now, with 36 LED segments instead of 24, they offer even finer precision. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially in the direction you are turning.

Virtual Pedal with Easy Close

Opening and closing the boot is effortless, even when your hands are full. Simply make one forward kicking motion under the bumper to open the boot and kick again to close it. The boot waits for you to step away, giving you ample time to load or unload your luggage. This feature is available with KESSY and the power-operated boot.

Walk-away KESSY

Never worry about forgetting to lock your car again. The new walk-away function of the Keyless Entry Start and Exit System not only allows you to lock and unlock your car by touching the front door handles, but it also automatically locks the doors when you walk away with the key.

Enhanced space

Still as spacious as ever, now even more modern and luxurious. The new, larger screens provide a gateway to the digital world. Crafted from the finest materials, the interior is forward-looking while staying true to Škoda's best traditions. Ambient lighting enhances the unique atmosphere of the interior and highlights numerous smart details.

Ultimate information hub

See what you need, when you need it. With the Head-Up Display, 10" Virtual Cockpit, and 13" Škoda Infotainment system, the new Octavia ensures you stay informed, prioritizing information by importance.

Infotainment screen

The world at your fingertips. With a 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features. The new generation of the MIB system is not only smoother and faster in operation, but also offers new functions, like the Heaters button that makes it easy to activate all or selected heated features – front/rear windscreens, seats and steering wheel – by just one tap.

Head-Up Display and Virtual Cockpit

All the key information right in front of you. The 10" Virtual Cockpit offers driving data in easy-to-comprehend, customisable view. In addition, the Head-Up Display can be ordered, showing the most crucial information and navigation guidance right on the windshield.

Take the online world with you

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. Škoda Connect is your gateway to a world of unlimited communication options.

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

MyŠkoda

Enjoy full control of your car. Download MyŠkoda application and access all necessary services anytime, whether it's driving data, fuel range, lock and unlock or even where you last parked.

Smart tricks for a better day

It’s the small things that make a difference. Details that help you focus on what’s really important. A way to sleep comfortably on the road and arrive refreshed. Places to put your things so you have them always on hand. Ways to live smarter.

Sleep package

To make sleeping on the road comfortable, Octavia can be fitted with Sleep Package. It includes headrests with adjustable sides so that the passengers on rear outboard seats can relax during long journeys. The package includes a snug blanket.

Storage compartment

Even rear passengers can now have everything they need easily on hand. The removable storage compartment fits over the centre tunnel and offers space for smaller items, phones or drinks.

Space to fit your world

Ample space is just the beginning. We've equipped it with practical features and smart innovations to help you make the most of it. Everything has a designated place, and all your belongings stay where you want them.

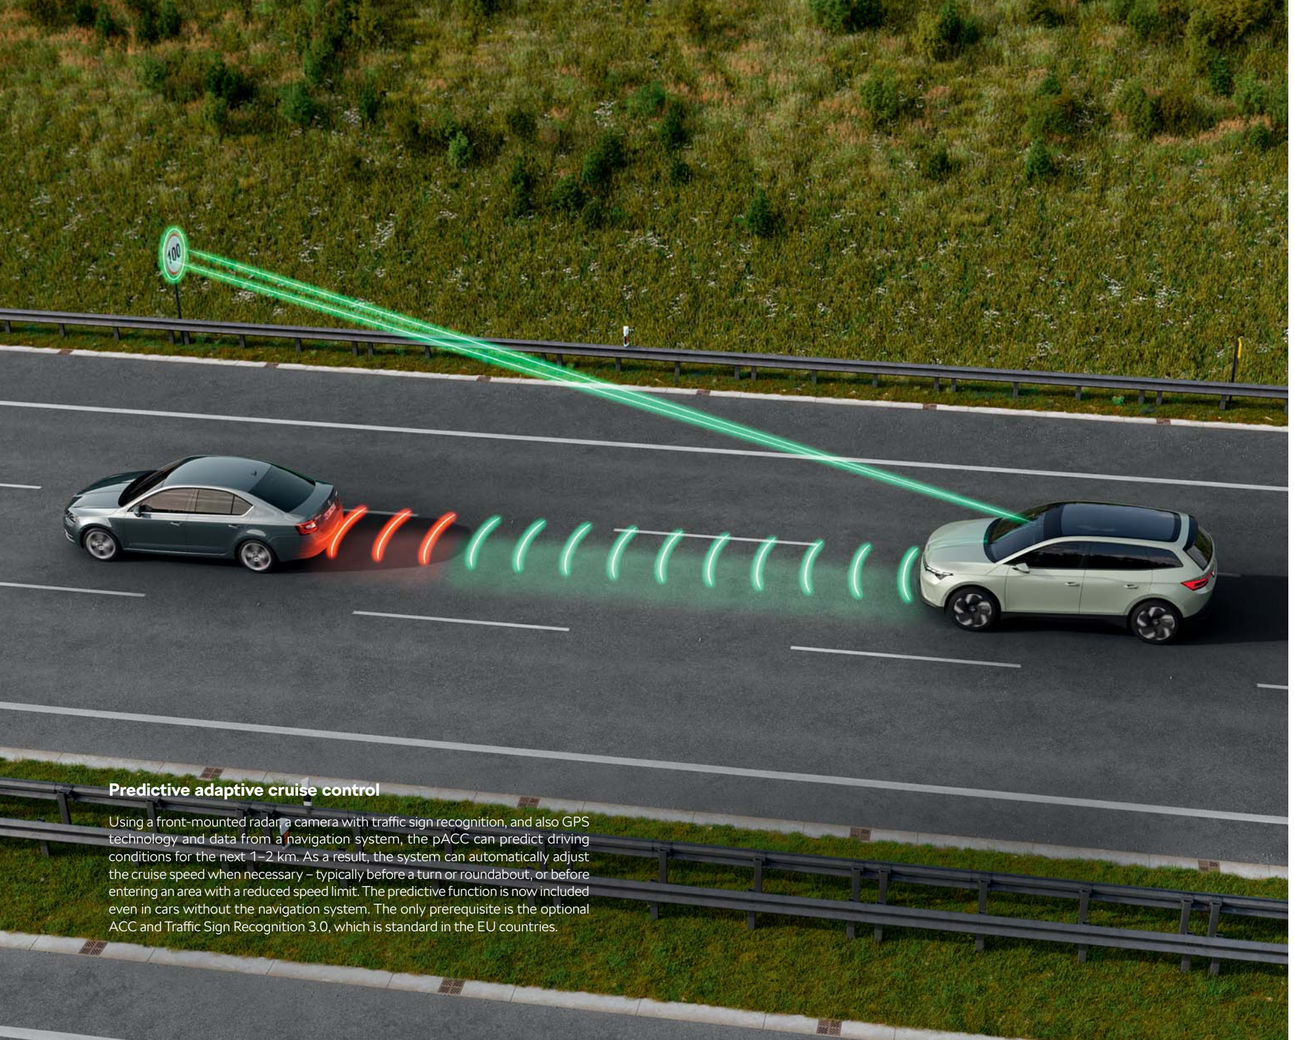

Luggage room

The luggage compartment sets the standard with an impressive volume of 600 liters (640 liters for the Combi). Now featuring even smarter solutions such as a net system, practical hooks, and cargo elements.

Multifunctional pocket

The convenient pocket beneath the roller cover is perfect for storing items like jackets or handbags, keeping smaller belongings easily accessible and separate from the rest of the boot. The multifunctional pocket now features two new versatile hooks, each capable of supporting up to 2 kg, enhancing the practicality of your storage options.

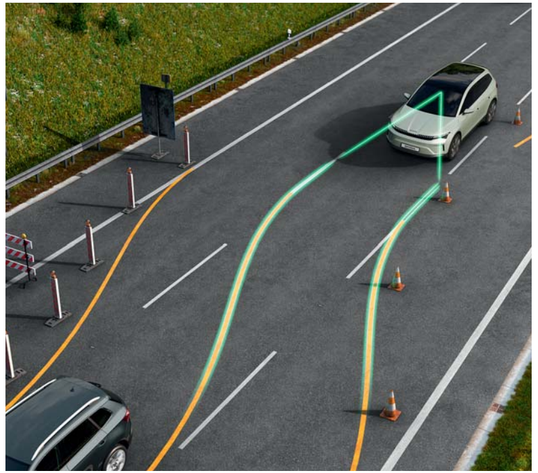

Predictive adaptive cruise control

Using a front-mounted radar, a camera with traffic sign recognition, and also GPS technology and data from a navigation system, the pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or before entering an area with a reduced speed limit. The predictive function is now included even in cars without the navigation system. The only prerequisite is the optional ACC and Traffic Sign Recognition 3.0, which is standard in the EU countries.

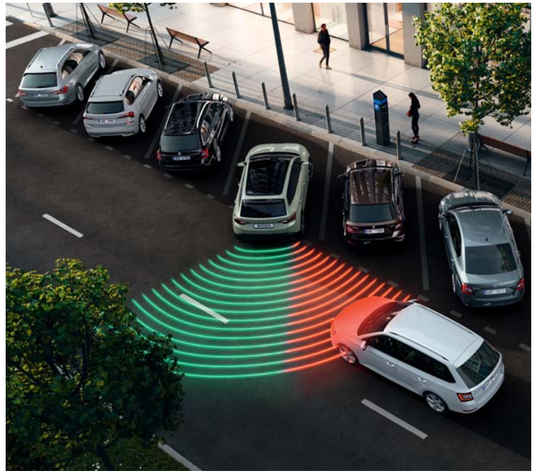

Safer. Easier. Smarter.

Your co-pilot is now even better. The improved Travel Assist 3.0 is now able to follow the vehicle in front and offers improved lane guidance and lane changing. In case of emergency, the car is able to stop safely at the side of the road. Using online data allows for more precise reactions around traffic islands, railway crossings and speed bumps, as well as improved traffic sign recognition, including temporary signage. Also new is the ability to detect traffic lights and all the sensors have also been improved and updated.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

Rear Traffic Alert

Using the Side Assist sensors in the rear bumper, Rear Traffic Alert helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger. It also detects other road users coming from the blind spots, like cyclists, and warns the occupants of the car, preventing a collision or opening of the doors into the cyclist's path.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Remote Parking

Let your car park itself, while you watch from the outside. Remote Parking Assist enables you to use the Intelligent Park Assist to park your car, or move it in or out of a parking space. For safety, you need to watch and control the car by keeping your finger on the button in the app.

Parking smarter is parking safer

Could parking be any easier than fully automatic? The new Octavia is able to find you a space and park in it, without you even being in the car.

Intelligent Park Assist*

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Octavia will autonomously drive itself into the parking space – either between the parked cars or just between the lines – without the driver having to touch the wheel or pedals.

* Only with DSG.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Studio interior

Grey/Black fabric upholstery
Narbe ruby pad
Silver squares haptic dashboard décor
Piano Black door décor

Essence

Even as standard, the Essence version is fitted with a rich list of equipment. This includes, for example: 2-zone Climatronic , 10" Digital display and 10" Infotainment, leather multifunction steering wheel, two USB-C ports and cruise control. The Essence trim is available with the Studio interior design selection.

Studio

Sportline

Sporty flair

No matter where you go, enjoy the journey in style. The new Octavia Sportline blends a sleek, dynamic exterior with enhanced driving performance and advanced technology. Elevate every drive you take!

Dynamic looks, dynamic drive

Enjoy the drive and look the part. The Octavia Sportline catches the attention with its front aerodynamic spoiler and rear diffuser, gloss black grille and trim, as well as exclusive alloy wheels and LED headlights.

The drive is even better with the Performance Package, which includes progressive steering and lowered sports suspension. And now you can get the Sportline with a tow bar too!

Something just for you

This is just about you and your passengers. Settle yourself in the fabric and artificial leather sports seat, grab the perforated leather multifunction steering wheel and place your feet on the aluminium sports pedals. The Carboon look dashboard and piano black door décor, leatherette dashboard pad and the cool black headliner complete the driving-focused atmosphere. The 10" Virtual cockpit will serve you all the necessary information, while the KESSY Advanced will make entering your driving world easy. This is all about the drive.

Sportline

Sportline

Front sport seats upholstered in a combination of grey fabric and leatherette with carbon dashboard décor and a black leatherette dashboard pad with grey stitching, along with Piano black door décor and black headliner, represent a combination of sportiness and style.

RS

Rally genes for every day

Created for those who demand the best possible drive. Everything we learned in decades of motorsport, infused into an everyday family car.

Dynamic drive

With its 2.0 TSI / 195 kW engine, this is the most powerful Octavia, ever. With progressive steering, it dives into the corners lightning quick, while the sports suspension keeps it planted to the road. The sports exhaust is here for a proper soundtrack. But the looks matter, too. The LED Matrix headlights, the aerodynamic front bumper and wide, black grille with unique RS badge create a face to remember. In the rear, the aerodynamic bumper with black diffuser is complemented by a black spoiler. The 18" wheels in exclusive designs are standard.

RS

This is where the real driving excitement begins. The RS interior is crafted with the driver in mind, letting you fully experience the power and performance of the Octavia RS. It features a three-spoke, perforated leather, multifunction RS steering wheel, RS sports seats available in fabric or Suedia, and sleek aluminum sports pedals. The neoprene or Suedia dashboard pad and black headliner create a focused atmosphere. Plus, there's a long list of equipment to keep you comfortable, whether you're cruising or putting your foot down.

Accessories

Make your car truly yours with Genuine Accessories

The Octavia is engineered to meet everyone's needs, whether for everyday driving or holiday adventures. Customise it to reflect your personal style with Škoda Genuine Accessories. Enhance its look with a wide array of sporty alloy wheels and design features such as front and rear spoilers, mirror caps, and more. Add a touch of elegance and comfort to the interior with premium foot mats, pedal covers, and unique LED logo projectors for the doors.

But it's not just about looks. You can simplify your daily routine in many ways. A variety of practical accessories like hooks, media holders, and cooling boxes will make your journey and commute more enjoyable than ever. Of course, safety is paramount. That's why we offer a full range of child safety seats for your little ones, along with safety solutions for your pets.

Moreover, you can transform the boot of your Octavia into an even more functional space. Choose from our selection of mats, trays, and net programmes to keep everything tidy and organised.

Make your Octavia simply yours.

6.5J × 16" ET46 for 205/60 R16
5E3071496AA8Z8

Hub covers 16"

Tekton
hub covers
for 16" steel wheels
5E0 071 456C | 4-piece set

Can be used with snow chains.

All listed wheels are sold without center caps; the caps can be purchased separately.

Transmission	Manual 6-speed (Automatic 7-speed DSG)	Manual 6-speed (Automatic 7-speed DSG)	Automatic 7-speed DSG	Manual 6-speed	Automatic 7-speed DSG	Automatic 7-speed DSG
Weight						
Kerb weight – with 75 kg driver (kg)	1,361–1,514 (1,390–1,538)	1,361–1,519 (1,390–1,543)	1,539–1,683	1,436–1,587	1,464–1,622	1,531–1,635
Payload – incl. driver and extra equipment (kg)	471–608 (457–598)	466–608 (452–598)	500–662	448–593	453–604	510–578
Total weight (kg)	1,870–1,910 (1,880–1,920)	1870	2,030–2,200	1,920–1,960	1,960–2,000	2,015–2,070
Trailer load without brakes (max. kg)	680 (690)	680 (690)	750	710	730	750
Trailer load with brakes – 12% (max. kg)	1,300	1,500	1,700	1,500	1,600	1,600

Further specifications

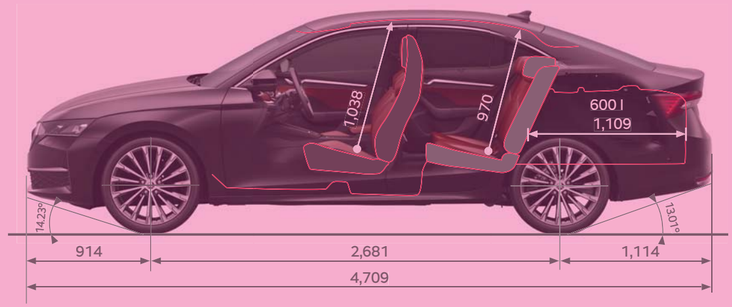

Body		Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Type	5-seater, 5-door, 2-compartment	Rear brakes	Drum brakes; alternatively disc brakes depending on engine version
Turning circle diameter (m)	11,1	Clearance (mm)	143 (129 for RS)
Chassis		Luggage storage space (max. l)	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser	Without spare tyre, with rear seat backrests – upright/down	600/1,550
Rear axle	Compound link crank-axle	Tank capacity (l)	45 (50 for RS)

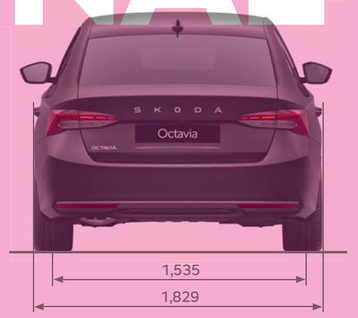

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment version of the car.
( ) Applies to the version with automatic transmission.

Technical specifications and drawings apply to the Selection version.
The parameters for Sportline cars may differ. For more information, contact your Škoda partner.
