Technical Data

There's still plenty to explore

Every road you take in your life leads to new discoveries. Explore the next one with the new and improved Škoda Octavia. Enjoy the new tech that will enable you to work and live smarter.

The new Octavia is about more than just a smarter look. The new materials used in the interior are more pleasant to the touch and easier on the environment. Improvements such as Ergo Seats bring a new level of comfort even on the longest drives.

On the technological side of things, the interior is dominated by a pair of new and larger screens – 10" Virtual Cockpit and 13" Škoda Infotainment. These give you a perfect overview of the new features the Octavia has to offer, including the latest generation of parking assists.

The engine line-up still offers the tried and tested TDI and TSI engines with the mild hybrid options. On top of the line is, as usual, the powerful RS version that combines practicality with thrilling dynamics.

That's the smart way of working and living. That's what we call Škoda.

Classic with a sharp edge

A crystalline signature on a timeless shape. The new Octavia retains all the sleekness, space and practicality it is known for and adds a crisper style style.

Spacious in style

The distinctive light signature of the LED headlights and wide, imposing grille give the updated Octavia a new, characteristic look. At the same time, it retains its classic shape and legendary practicality, including the largest

luggage space in class. Once again, the Octavia shows that you actually can have it all – great looks, effective aerodynamics and lots of practicality.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. LED Matrix beam headlights provide great visibility even with other cars around and now, with 36 LED segments instead of 24, they offer even finer precision. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially in the direction you are turning.

Virtual Pedal

Full hands are not a problem anymore. With Virtual Pedal, just a swing of the foot under the bumper is enough to open the door. Available in combination with KESSY and electric 5th door.

Walk-away KESSY

Never forget to lock your car ever again. With the new walkaway function, the Keyless Entry Start and Exit System will not only lock and unlock your car with a touch of the front door handles, but will also automatically lock the doors when you walk away with the key.

Enhanced space

Still as spacious and now also even more modern and luxurious. New, larger screens open up window into the digital world. The finest sustainably-made are forward looking yet firmly rooted in the best traditions of Škoda. The ambient lighting completes the unique atmosphere of the interior and highlights a number of smart details.

All the information, as you need it.

See what you need when you need it. Using the head-up display, 10" Virtual Cockpit and 13" Škoda Infotainment, the new Octavia keeps you in the picture, with information ranked by importance.

Infotainment screen

The world at your fingertips. With a 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features. The new generation of the MIB system is not only smoother and faster in operation, but also offers new functions, like the Heaters button that makes it easy to activate all or selected heated features – front/rear windscreens, seats and steering wheel – by just one tap.

Head-up Display and Virtual Cockpit

All the key information right in front of you. The 10" Virtual Cockpit offers driving data in easy-to-comprehend, customisable view. In addition, the Head-up Display can be ordered, showing the most crucial information and navigation guidance right on the windshield.

Take the online world with you

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment, information, and possible assistance while on the move. Škoda Connect is your gateway to a world of unlimited communication options.

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

MyŠkoda

Enjoy full control of your car. Download MyŠkoda application and access all necessary services anytime, whether it's driving data, fuel range, lock and unlock or even where you last parked.

Smart tricks for a better day

It's the small things that make a difference. Details that help you focus on what's really important. A way to sleep comfortably on the road and arrive refreshed. Places to put your things so you have them always on hand. Ways to live smarter.

Sleep package

To make sleeping on the road comfortable, Octavia can be fitted with Sleep Package. It includes headrests with adjustable sides so that the passengers on rear outboard seats can relax during long journeys. The package includes a snug blanket.

Storage compartment

Even rear passengers can now have everything they need easily on hand. The removable storage compartment fits over the centre tunnel and offers space for smaller items, phones or drinks.

Extra large space for extra large life

Lots of room is just the beginning. To allow you to make the most of it, we filled it with practical features and smart tricks. Everything has enough space here, and everything will also stay in its place.

Luggage room

Once again, the best-in-class luggage compartment volume of 600 litres (640 litres for the Combi). Now also with even more smart solutions like net system, practical hooks or cargo elements.

Multifunctional pocket

The practical pocket under the roller-cover is great for storing items like jackets or handbags. It is great for keeping smaller items on hand and separated from the rest of the boot. Multifunctional pocket now boasts 2 new multipurpose hooks. Each hook is able to support up to 2kg adding practicality to your storage options.

Predictive adaptive cruise control

Using a front-mounted radar, a camera with traffic sign recognition, and also GPS technology and data from a navigation system, the pACC can predict driving conditions for the next 1–2 km. As a result, the system can automatically adjust the cruise speed when necessary – typically before a turn or roundabout, or before entering an area with a reduced speed limit. The predictive function is now included even in cars without the navigation system. The only prerequisite is the optional ACC and Traffic Sign Recognition 3.0, which is standard in the EU countries.

Safer. Easier. Smarter.

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, the system issues a visual and audible warning and eventually disengages.

Adaptive Lane Assist

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

Front and rear assist with pedestrian protection

It's easy to overlook a pedestrian or a cyclist when reversing. With the combination of ultrasound sensors and closerange cameras, this system warns driver of pedestrians that might appear not only in front of the car, but also behind it. Using rear corner radar sensors, it can also detect fast approaching road users from the sides. If the collision is imminent in any case, the system will initiate emergency braking.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Remote Parking

Let your car park itself while you just watch from the outside. With Remote Parking Assist, you can use the Intelligent Park Assist feature to park in parallel or perpendicular spaces. Finally, you can move the car in or out of the parking space. For safety, the driver needs to watch the whole process and control the car by keeping the button in the app pressed.

Parking smarter is parking safer

Could parking be any easier than fully automatic? The new Octavia is able to find you a space and park in it, without you even being in the car. It can also be taught to park in a spot of your choosing.

Intelligent Park Assist*

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Octavia will autonomously drive itself into the parking space, without the driver having to touch the wheel or pedals.

* Only with DSG.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Studio interior

Grey/Black fabric upholstery
Narbe ruby pad
Silver squares haptic dashboard décor
Piano Black door décor

Essence

Even as standard, the Essence version is fitted with a rich list of equipment. Sportline

Sporty look for any day

It doesn't matter where you go, if you can enjoy it in style. The new Octavia Sportline combines a more dynamic-looking exterior with sharper driving dynamics and more tech. Make the most of every road you take!

Dynamic looks, dynamic drive

Enjoy the drive and look the part. The Octavia Sportline catches the attention with its front aerodynamic spoiler and rear diffuser, gloss black grille and trim, as well as exclusive alloy wheels and LED headlights.

The drive is better, too. It comes equipped with the Performance Package, which includes progressive steering and lowered sports suspension. Now you can also have Sportline with tow bar!

Something just for you

This is just about you and your passengers. Settle yourself in the fabric and artificial leather sports seat, grab the perforated leather multifunction steering wheel and place your feet on the aluminium sports pedals. The Carbon look dashboard and piano black door décor, leatherette dashboard pad and the cool black headliner complete the driving-focused atmosphere. The 10" Virtual cockpit will serve you all the necessary information, while the KESSY Advanced will make entering your driving world easy. This is all about the drive.

Sportline

Sportline

Front Sport seats with upholstery in a combination of grey recycled fabric and leatherette with Carbon dashboard décor and black leatherette dashboard pad with grey stitching along with Piano black door décor and black headliner are a combination of sport and sustainability.

RS

Rally genes for every day

Created for those who demand the best possible drive. Everything we learned in decades of motorsport, infused into an everyday family car.

Dynamic drive

With its 2.0 TSI / 195 kW engine, this is the most powerful Octavia, ever. With progressive steering, it dives into the corners lightning quick, while the sports suspension keeps it planted to the road. The sports exhaust is here for a proper soundtrack. But the looks matter, too. The LED Matrix

headlights, the aerodynamic front bumper and wide, black grille with unique RS badge create a face to remember. In the rear, the aerodynamic bumper with black diffuser is complemented by a black spoiler. The 18" wheels in exclusive designs are standard.

RS

This is where serious driving happens. The RS interior was designed around the driver and driving, so you can make the most of the power and driving dynamics of the Octavia RS. The three-spoke, perforated leather, multifunction RS steering wheel, the RS sports seats in a choice of fabric or Suedia, the cool aluminium sports pedals. The neoprene or Suedia dashboard pad and black headliner to complete the focused atmosphere. And, of course, the long list of equipment to make you comfortable whether you drive fast or slow.

RS interior

Black fabric upholstery
Neoprene black pad with red stitching
Carbon dashboard décor
Piano Black door décor

RS

RS

Front Sport seats with black fabric upholstery with Carbon dashboard décor and Neoprene black dashboard pad with red stitching along with Piano Black door décor along with black headliner ensure the sporty character of the interior.

RS Suedia interior

Accessories

Make your car truly yours with Genuine Accessories

The Octavia is engineered to meet everyone's needs, whether for everyday driving or holiday adventures. Customise it to reflect your personal style with Škoda Genuine Accessories. Enhance its look with a wide array of sporty alloy wheels and design features such as front and rear spoilers, mirror caps, and more. Add a touch of elegance and comfort to the interior with premium foot mats, pedal covers, and unique LED logo projectors for the doors.

But it's not just about looks. You can simplify your daily routine in many ways. A variety of practical accessories like hooks, media holders, and cooling boxes will make your journey and commute more enjoyable than ever. Of course, safety is paramount. That's why we offer a full range of child safety seats for your little ones, along with safety solutions for your pets.

Moreover, you can transform the boot of your Octavia into an even more functional space. Choose from our selection of mats, trays, and net programmes to keep everything tidy and organised.

Make your Octavia simply yours.

Further specifications

Body		Front brakes	Disc brakes with inner cooling and with single-piston floating calliper
Type	5-seater, 5-door, 2-compartment	Rear brakes	Drum brakes; alternatively disc brakes depending on engine version
Turning circle diameter (m)	11,1	Clearance (mm)	143 (129 for RS)
Chassis		Luggage storage space (max. l)	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser	Without spare tyre, with rear seat backrests – upright/down	600/1,550
Rear axle	Compound link crank-axle	Tank capacity (l)	45 (50 for RS)

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment version of the car.
() Applies to the version with automatic transmission.

Technical specifications and drawings apply to the Selection version.
The parameters for Sportline cars may differ. For more information,
contact your Skoda partner.
