CO <sub>2</sub> emissions	129–138 g	154–159 g	218 g	119–143 g	170–175 g

Fuel & CO<sub>2</sub> values starts from min. to max., based on transmission  
Fuel consumption: [l/100 km]; CO<sub>2</sub> emissions: [g/km]

### Key selling points

#### Full Led Matrix Headlights

For the first time, the model offers the Matrix feature. This can adjust lighting by switching individual segments on and off in response to the current situation sensed by the multi-purpose windscreen camera. It can light or mask various areas and objects as needed, giving the maximum lighting performance without dazzling other drivers.

#### Display

The highest model display offers a diagonal size of 9.2". This is exactly how much you need on board a technology-packed SUV without getting distracted by anything on the dashboard. All the services are controlled by touch, rotary dials and driving wheel buttons or via Laura (the digital multilanguage assistant).

#### Virtual Cockpit

The 10.25" screen with five display modes (classic, modern, reduced, enhanced, and sport) that perfectly fits the car's interior can display audio information, telephone calls (with caller photographs), navigation information (including close-ups), 3D car graphics, enhanced animation, and so on to the full extent of the screen size.

#### Trailer Assist System

This useful driving assistant will help you reverse with a trailer – just select the desired direction with the joystick, and the electronics will do all the driving for you. You will never have to worry about parking with a trailer again.

#### Certificated Ergonomic Seats

Do you want to travel first class and without back pain? The driver's and front passenger's certified seats offer forms of comfort that include heat, ventilation, and massage. Of course, the seats can be electrically set for position, height, incline, and headrest, including four options for lumbar support.

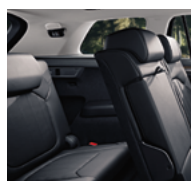

#### Connectivity

The online services include infotainment apps that display current news or weather information and enable you to synchronise your personal Google calendar... so you can stay in at all times. The MyŠkoda app will allow you to lock or unlock your car using your mobile handset and show your current position in the map.

#### Three Zone Air-Conditioning

The perfect temperature inside a car can differ for each passenger. With three-zone air-conditioning, the driver, front-seat passenger, and rear seat passengers can adjust temperature settings for their own space, so you no longer have to argue with your partner, mother-in-law, or children...

#### Third Row Of Seats

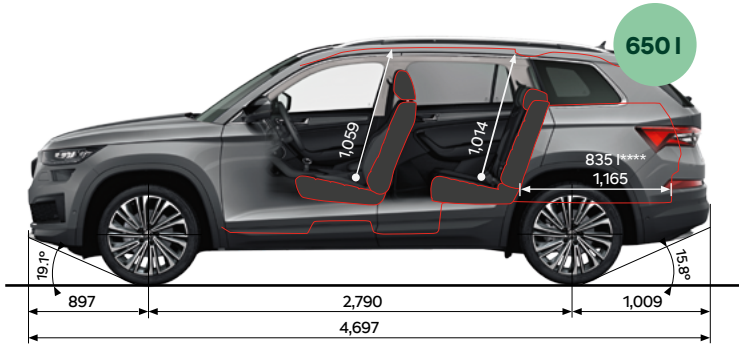

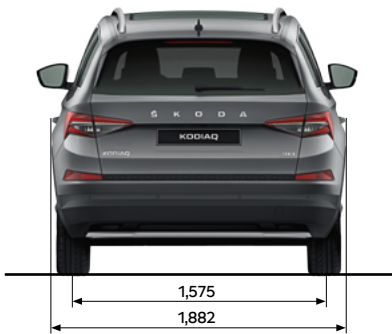

The Škoda Kodiaq excels with truly generous room for as many as seven passengers, so you can go on holidays with your entire family, friends, or colleagues. If you need more room for luggage or other loads, the third row of seats will easily fold below the luggage compartment floor.

Derivates

Dimensions

With a big car, looking for an ice scraper can be like locating a needle in a haystack. Installed in the fuel tank lid, the original integrated ŠKODA scraper is always at hand, so you will never have to resort to scraping the windows with your credit card again.

The Side Assist is there to help you change lanes more safely. Two radar sensors embedded in the bottom of the bumpers monitor the dead angles for you. If your manoeuvre is not safe, an orange LED in the rear-view mirror will alert you.

Do you want to enjoy listening to music like in a concert hall? Then get on board the new ŠKODA Kodiaq. The placement of the speakers is crucial for the perfect sound in the interior. Speakers you can find in the centre as well as in both front and rear doors. A subwoofer rounds out the package.

All information about the car as product, either in verbal or in visual form, has only an informative and illustrative character. They are non-binding and does not oblige to conclude a contract with the shown specification or equipment. Individual product features might differ from the actual production vehicles across markets.
