Technical Data

Your new space to explore

Your car should be your family's second home on the road. A partner to explore the world. A tool to make your life smarter. Škoda Kodiaq does all that. And more.

In the new Kodiaq, the bigger size means more space for passengers in all three rows. New technologies of infotainment, smarter controls, and comfort features like Ergo seats with improved massage function will make your time aboard more enjoyable.

With the new engine line-up now including the mHEV and plug-in hybrid versions, you can live and drive smarter. The new dual-valve DCC Plus adaptive suspension offers an even better combination of driving dynamics and comfort.

That's the smart way of family life. That's what we call Škoda.

Bigger. Bolder. Better.

The extended length offers extra room for your family and a sleeker, more elegant profile. Features like the gloss black trim around the upper part of the window and D-pillar in Unique Dark Chrome finish add to its appeal. Practicality meets style, making it your family's fashionable companion for adventures.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. Top LED Matrix system provides great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

Front grille with horizontal light strip

To grab even more attention on the road, the new wider and bolder grille has its vertical slats illuminated by LEDs. This makes the new Kodiaq an unmistakable sight when driving at night.

Virtual Pedal with Easy Close

Opening and closing the boot is effortless, even when your hands are full. Simply kick under the bumper to open the 5th door, and kick again to close it. The door waits for you to step away, giving you ample time to load or unload your luggage. This feature is available with KESSY and the electric 5th door.

KESSY Advanced

Never worry about forgetting to lock your car again. With KESSY, you can lock and unlock the car simply by touching the front handle. The latest version also includes Open on Approach and Walk Away Locking functions, which automatically unlock the car as you approach it and lock it when you walk away.

Space for the digital age

Digital yet tactile. Stylish yet sustainable. The Kodiaq's new interior concept seamlessly integrates the latest technologies with tried-and-true tactile controls. The new materials are not only visually appealing and pleasant to touch, but also environmentally-friendly. Large touchscreens, Škoda Smart Dials, and a column-mounted shifter create a clean centre console with ample storage. The leather is manufactured using discarded coffee husks as a natural tanning powder, while the fabric is crafted from recycled materials. This ensures you enjoy comfort and a pleasant atmosphere while being eco-friendly. Ambient lighting can be adjusted to match your mood, enhancing the unique onboard experience. Every detail contributes to the distinctive ambiance of the Kodiaq's interior.

Head-Up Display and Virtual Cockpit

All the key information right in front of you. The standard 10" Virtual Cockpit offers driving data in easy-to-comprehend, customisable view. In addition, the Head-Up Display can be ordered, showing the most crucial information and navigation guidance right on the windshield.

Smart interaction for every journey

Be connected to the world around. The new Kodiaq creates a digital environment around you, carefully curated so that what's most important is right in front of you, while the large screen displays items that require detail.

Infotainment screen

The world at your fingertips. With the 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience.

Display cleaner

Keep your screens clean and gleaming. Effortlessly remove smudges and fingerprints from the infotainment display or any other glossy surface. The display cleaner is conveniently stored in the centre console, ensuring it's always within easy reach whenever you need it.

Never lose connection

In today's digital world, everything is just a touch away. Use the infotainment screen to set up your car, navigate to your destination, and check traffic updates. Additionally, you can use your mobile device for remote access to vital details about your car, including the state of charge, fuel level, and door lock status.

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

Always charged

A first for Škoda: the new Kodiaq offers wireless charging for two smartphones with ventilation to prevent your devices from overheating and charging power up to 15 W per phone.

Space for seven

Even more space for your family or friends. The new larger interior offers comfortable seating in three rows with more room than ever before. The passengers in the third row get an extra 15 millimetres of headroom compared to the previous model.

Turn Assist

Automatically activated when the vehicle is turning, this system uses front sensors monitoring the area in front of the vehicle. This allows it to prevent collisions with the oncoming traffic that could've been overlooked by the driver.

Even safety can multitask

The Travel Assist system combines Predictive Adaptive Cruise Control (PACC) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, the system issues a visual and audible warning and eventually disengages.

Exit Warning System

To make exiting the parallelly parked vehicle safer and easier, the Exit Warning System monitors the area behind the car using the two nanoradars under the rear bumper cover and warns driver or passenger that a vehicle, a pedestrian or a cyclist is approaching using visual signals.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Remote Trained Parking

Train your car to perform a parking manoeuvre and oversee the process from the outside. Remote Trained Parking is a highly advanced parking assistant which enables the car to perform familiar parking manoeuvres without the driver being present in the car. First, the driver performs the parking manoeuvre and saves the route to the system's memory. For example, it records the route from the entrance to your property to a parking space. After that, as soon as the car recognises the scanned route, it will ask you via the infotainment whether it should take control. Following your approval, the vehicle will park itself, as long as you stay next to it and monitor the process for safety. You simply monitor it from the outside, using your phone app.

Finding its own space

Could parking be any easier? The new Kodiaq is able to find you a space and park in it. It can also be taught to park in a spot of your choosing.

Intelligent Park Assist

Let your car find and offer you parking spaces. Select one and then just sit back and watch. The Kodiaq will autonomously drive itself into the parking space, without the driver having to touch the wheel or pedals.

Loft interior

Recycled Yocto melange fabric upholstery,
pad and door insert
Deep black décor
Leatherette door and middle armrest

Design Selections for the interior

With Design Selections, you can create a space that suits your style and personality. Each Design Selection tastefully pairs upholstery materials and colours with dashboard décors, specific details, and even comfort features. Select the design that suits you best!

Design Selection Loft

Grey seats upholstered in recycled fabric are the prominent feature of this interior. The overall look is underscored by cross-stitching on the recycled Yocto melange fabric dash pad and Deep black décor.

Lounge interior

Suedia dash pad, armrests and door inserts
 Dark Cork Grey décor
 Suedia, leatherette and recycled wool fabric seat upholstery

Design Selection Lounge

Enjoy the interior that not only feels natural, but is also nature-friendly. The recycled wool, used on the seat upholstery, has been tested and approved by The Woolmark Company in accordance with its quality certification process. A wool certificate label is integrated into the seat and visibly symbolises the sustainable approach. The overall luxurious

feel of the interior is further enhanced with combination of Suedia and leatherette on the seats and the Suedia accents that compliment the Dark Cork Grey décor on the dashboard and door inserts. The contrasting yellow stitching around the interior adds the unmistakable visual style.

Suite black interior

Black leatherette pad, armrests and door inserts
Swan drawing Grey décor
Black leather/leatherette upholstery

Design Selection Suite black

Black leather tanned using discarded coffee beans dominates the stylish interior. The overall look is highlighted by grey cross-stitching on the dash and Swan drawing Grey décor, underscored by ambient lighting.

Suite cognac interior

Cognac leatherette pad, armrests and door inserts
 Swan drawing Grey décor
 Cognac leather/leatherette upholstery

Design Selection Suite cognac

Cognac leather tanned using discarded coffee beans dominates the stylish interior. The overall look is highlighted by cognac cross-stitching on the dash and Swan drawing Grey décor, underscored by ambient lighting.

Sportline

Back in black

Designed for those who want to stand out from the crowd. People with a dynamic lifestyle who want a sporty-looking car. That's the new Kodiaq Sportline. Sporty style for the whole family.

Dynamic style

A fast look for every day. The Kodiaq Sportline is easily recognisable thanks to its gloss black accessories. Black items, such as the front grille, D-pillars, side mirrors, and roof rails, plus all the lettering, create a more streamlined and sporty look.

The Sportline is also fitted with aerodynamic front bumper, body-coloured side sills, and black rear diffuser with Unique Dark Chrome trim piece. The whole look is finished off with 19" alloy wheels.

Your place to shine

It looks cool, but it's not just about appearances. The Sportline interior is designed with the driver in mind, ensuring you perform at your best behind the wheel. Along with the three-spoke, perforated leather multifunctional steering wheel with Sportline plaque, black fabric, and black leatherette, the perforated Suedia sports seats hold you firmly even through the sharpest turns. Aluminium sports pedals add to the driving experience. The all-black interior with a black headliner enhances your style. With a long list of standard equipment, the Kodiaq Sportline is the sporty family car that meets every need.

Sportline interior

Suedia pad, armrests and door inserts
Peter Chrome décor
Black leatherette and perforated Suedia upholstery

Design Selection Sportline

The dynamic character of the Sportline interior is centred around the black leatherette and perforated Suedia seats made from recycled material. The unmistakable style is further enhanced by the Suedia pad and Peter Chrome décor.

RS

When speed runs in the family

The most spacious Škoda with a dose of dynamic DNA. Powered by the new 2.0 TSI/195 kW 4×4 engine and fitted with sporty DCC suspension, it offers a spirited driving experience for the whole family.

Sporty looks

To match its dynamic personality, the Kodiaq RS comes with striking, sporty looks. You'll immediately notice the gloss black details like the grille, window trim, mirror caps, roof rails, and D-pillar. The larger, aerodynamic front bumper with front intakes and rear bumper with black diffuser and

twin exhaust tips underscore the sporty nature of the car. The final touch comes in the form of the 20" black wheels with bright red brake calipers prominently visible behind them. So the car looks fast, even standing still!

The space to enjoy the pace

Spacious or sporty? With the new Kodiaq RS, you don't have to choose! Your family can enjoy the roomy and practical interior while you focus on driving. The three-spoke multifunctional sports steering wheel is perfect for hitting that ideal line through a corner. The leather sports seats keep you firmly in place and offer exceptional comfort on long-distance drives. Red stitching throughout the interior completes the sporty look. Enjoy the dynamic soundtrack of your choice with the Canton Sound System and acoustic window glass. The Virtual Pedal and KESSY Advanced provide quick and easy access to your car. Whether you're on the school run or navigating your favourite back road, you can feel sporty and appreciate the car's stylish appearance, even at low speeds.

RS interior

Dinamika pad, armrests, and door inserts
Chrome décor
Black perforated leather upholstery with red stitching

Design Selection RS

To create a unique, sporty atmosphere, the black Suedia upholstery of the RS interior pairs with contrasting red stitching on the seats, steering wheel, and dashboard. The captivating look is completed by the Dinamika pad and chrome décor.

RS Suite interior

Black leather pad, armrests, and door inserts
Chrome décor
Black Suedia upholstery with red stitching

Design Selection RS Suite

For a sporty yet luxurious look and feel, the RS Suite interior uses only the best materials. Black perforated leather with contrasting red stitching on the seats, steering wheel, and dashboard pad tastefully matches the chrome décor.

Plug-in-Hybrid

Starting with a positive charge

With over 100 kilometres of electric range, the Kodiaq Plug-in-Hybrid can go days without fuel. With its petrol engine, it can cover long distances without recharging.

Charging port

Easy to reach and conveniently placed, no matter where your charging station is. With cable-locking mechanism and coloured light that shows the charging status.

Cable storage

You can neatly stow your charging cables under the boot floor. This keeps them always on hand without reducing the useful cargo space.

Accessories

Make your car uniquely yours with Genuine Accessories

With a few adjustments, your car can become the ultimate family companion. Tailor your Kodiaq to meet your specific needs and enjoy an exceptional experience with Škoda Genuine Accessories. Enhance the exterior with stylish footboards, sleek mirror caps, and a wide selection of alloy wheels. Inside, you can opt for elegance with premium foot mats or durability with all-weather mats.

Simplify your road trips with numerous practical features. Choose from Smart Holders for bags, clothes, or devices, a door-mounted brush or umbrella, and even a coffee maker. For carrying all your essentials, select from various storage solutions both inside and outside the car, including boot mats, nets, roof racks, and roof boxes.

Moreover, prioritise your safety and that of your passengers – big and small. We provide a comprehensive range of child seats and transport options for your pets. Customise your Kodiaq to perfection for you and your family.

** According to the backrest position and variable position of the rear seat.

5-seater version

7-seater version

Disclaimer

The specified values refer to the achievable charging power of a new vehicle. This may decrease with the aging of the battery. The aging of the battery depends on a number of factors, including the load, charge cycles, and the charging management used.

The images presented in this catalogue (brochure) are used for illustrative purposes only and are not intended to form part of any contract or warranty. They display pre-series cars and certain illustrations, features, parts and equipment may differ from the actual production cars and from country to country. To get the exact specification of features, parts and equipment, please get in touch with your nearest local Škoda dealer.
